Waldheim Sees UN Golan Unit Extension

JERUSALEM, Nov. 26 (UPI). -UN Secretary-General Kurt Waldheim told Israeli leaders today he expects Syria to renew the mandate of the UN forces on the Goian Heights policing the cease-fire.

Mr. Waldheim made the comment on emerging from a 90minute meeting with Premier Xitzhak Rahin and other Israeli leaders. He termed the session a very constructive conversation and I was very satisfied."

Mr. Waldheim arrived in Israel from Syris, where he held a meeting with President Hafez al-Assad. "I informed the Prime Minister that I expect the mandate will be extended," he said. "In the light of talks I had with President Assad, I expect an extension of the mandate."

No Changes Seen

The six-month mandate of the Force would expire on Saturday without a renewal, Israeli leaders have said that they would regard a Syrian failure to renew the mandate as a hostile act.

Israeli forces are maintaining an alert on the Golan Reights. The alert began on Nov. 14 in response to what military sources described as suspicious Syrian

Mr. Waldheim said he will report to the Security Council on his Middle East tour when the council meets on the mandate question later this week. Mr. Waldheim is scheduled to go to Egypt tomorrow.

Meanwhile, the Foreign Ministry announced that Foreign Minister Yigal Allon will go to Washington on Dec. 9 at the invitation of Secretary of State Henry Kissinger for a "continued examination, of prospects for a bridge East peace"

Ford Asks Cuts but Will Let Europe and the United States and get the movement toward Budget Go Over \$300 Billion WASHINGTON: Nov. 26 (AP).

-Abandoning his quest for & federal budget under \$300 billion, President Ford proposed \$4.6 bil-lion in spending cuts today but said further cuts would be unwise at this time.

In a message to Concress Mr. Ford did not detail his reasons for feeling that further cuts in the budget submitted by former president Richard Nixon in Jannary would be unwise. But he seemed to acknowledge that they could have an adverse effect on the already weakening economy.

Altogether, Mr. Ford proposed 146 separate actions affecting federal spending plans for the 1975 fiscal year that began July 1. All but 11 would require congressional approval.

Under Mr. Ford's revised budget, federal outlays in fiscal 1975 would total \$302.2 billion, compared to his original goal of just under \$300 billion.

Biggest Chunk decision was made to build the Of the \$4.5 billion in reductions "In this situation it is clearly urged by Mr. Ford, the biggest chunk, \$1.7 billion, would come now impracticable for us to adhere from programs administered by to the previous timetable for dethe Department of Health Educisions on the main tunnel project, which were due to be taken in the summer of next year," Mr. Crosland added. cation and Welfare. Other major cutbacks included:

Veterans Administration, \$1.1 bil-

lion; Agriculture Department \$600 million; Defense Department, \$381 million and General Services Administration, \$200 million. All other reductions would amount to about \$100 million or

A variety of factors, including whether Congress agrees to the changes, could change Mr. Ford'srevised budget.

Oil Leases

For example, he acknowledged in his message that if projected off-lease sales on the outer continental shelf are not accomplished on schedule, "for environmental or other ressons," the \$302.7-billion spending figure could increase by \$3 billion or

In addition, director Roy Ash of the Office of Management and Budget said the figures were based on an estimate that the unemployment rate for the fiscal year will average about 6.15 per cent, which is below the projections of many private economists. Mr. Ford made a point of emphasizing that his budget would have totaled \$299.5 billion were

ON THE WAY OUT-Japanese Premier Kakuel Tanaka leaves official residence in Tokyo after his resignation.

Financial Dealings in Question

Tanaka Resigns as Premier; Succession Battle Under Way

By Edward Schumacher

TOKYO, Nov. 26 (WP),-Premier Kakuei Tanaka today announced his resignation, which had been expected for almost a

"As a man in the supreme post of the nation's administration, I deeply feel the political and moral responsibility for the current political confusion which has result-ed from my personal problems, he said in a statement handed to the vice-president of the ruling

Mr. Shins went to party head-quarters immediately afterward to meet with Liberal Democratic members of the Diet (parliament) and then with party leaders, who already were debating ways to select Mr. Tanaka's successor. The outgoing Premier was expected to stay in office until the party's Diet members and provin-

cial representatives approved a Leading Candidates

Paction leaders were bargaining to strengthen their power as the two leading candidates, Finance Minister Masayoshi Ohira and former finance minister Takeo Fukuda, maneuvered to succeed Mr. Tanaka as president of the party. By tradition, a ruling party's president becomes premier. The polarization between Mr. Ohira and Mr. Fukuda could make the succession fight a long one, although party leaders hoped to forestall a drawn-out feud by choosing a successor within the next week. Many observers expect the fight to last until about Dec. 10, when the Diet is scheduled to

meet in extraordinary session to approve a supplementary national According to an associate. Mr. Tanaka decided more than a week ago to resign, but delayed his anpopocement until after last week's visit of President Ford. The visit was regarded as having assured Mr. Tanaka's place in history as the first premier to meet an incumbent American president on Japanese soil. As an act of "diplomatic courtesy" Mr. Tanaka de-

layed his announcement until Mr. Ford had returned to the United States, aides said. The immediate cause of Mr. Tanaka's resignation was a magasine article last month that raised a series of questions about his personal financial dealings while in public office, Mr. Tanaka is a self-made man, having risen from status as a farmer's son to become a wealthy construction magnate.

Vindication Plans "I eventually plan to make clear the truth and seek the understanding of the people," be said in a statement, However, he has made no specific commitment on when and how he plans

to do that. The National Tax Office has been investigating Mr. Tanaka'e finances and opposition parties have vowed to hold a parliamentary hearing at which his friends and associates will be publicly anestioned.

Informed sources said that the fear of further revelations, as well as the urgings of his family. finally persuaded Mr. Tanaka to "I have not rested even a day since I left my native home

Mr. Tanaka said today. T have continued to work in earnest and I am filled with deep emo-"But this is only a problem

with nothing in my possession,"

standing has been raised among the people even for a moment means that it is a matter of shame which, as a public official, I feel it hard to endure."

Under Mr. Tanaka, his party lost seats in elections for both houses of the Diet. Since the latest loss, this past summer, the party has been sharply split be-tween the factions supporting Mr. Tanaka and those support ing Mr. Fukuda, who resigned from the cabinet in July. Mr. Liberal Democratic party, Etsusa-from the cabinet in July, Mr. Ohira is a Tanaka ally and the party leaders.

From the cabinet in July, Mr.

U.S. Achieved Trade Surplus For October

WASHINGTON, Nov. 26 (AP). -A large increase in foreign pur-chases of U.S. machinery and transport equipment helped give the United States a trade surplus in October, the first in six months, the Department of Commerce reported today. The surplus amounted to \$29 million.

Although the surplus was small in terms of total U.S. trade with other nations, it was a welcome development after months of beavy trade deficits because the high cost of importing oil. Both exports and imports increased Curing October, Exports rose 4.6 per cent to nearly \$8.7 billion and imports increased 1.4

For the year, U.S. trade shows a deficit of more than \$23 billion, due almost entirely to the 400-per-cent increase in the price of oil during the past year. First Surplus Since April

per cent to slightly more than

\$26 hillion

The October surplus compared with a deficit in September of \$233 million and was the first surplus since April, when it reached nearly \$93 million. Imports of crude oil and other petroleum products rose 6.6 per

cent last month to \$2.18 billion as ectual barrels imported rose to \$191.8 million from \$178.1 million in September. Preliminary Department of

Commerce information indicated the surge in exports chiefly reflected a big rise in shipments abroad of transport equipment.

Moscow Refuses Troop Pullback At China Border

By Peter Osnos

MOSCOW, Nov. 26 (WP).—Soviet leader Leonid Brezhnev today firmly rejected Chinese demands for a withdrawa! of Soviet forces disputed frontier areas as a precondition to normalizing rela-

tions between the two countries.

Mr. Brezhnev's remarks had the effect of nullifying China's offer earlier this month of a nonaggression pact, which Peking linked to the troop pullback. Despite some softening of rhetoric, the current exchange of Sino-Soviet positions, Western analysts here believe, has underscored differences rather

than narrowed them. "Peking declares outright," Mr. More Talks Ulan Bator, the capital of Outer Mongolia, "that it will agree to talks on border questions only after its demand concerning the so-called 'disputed areas' is met. It is quite obvious, comrades, that such a position is absolutely un-acceptable and .re reject it."

Unreservedly Optimistic Mr. Brezhnev also spoke of last weekend's meeting with President Ford and was unreservedly optimistic about the prospects for reaching an agreement with the United States on the limitation

According to the translation of the speech supplied by Tass, the government press agency. Mr. Brezhnev said:

"We agree with President Ford that, in the nearest months to come, work will be concluded on an agreement on this question." He added that "the course toward improving Soviet-American rela-tions that has taken shape in recent years has been confirmed

and developed further." The certainty with which Mr. Brezhnev apparently spoke surprised some observers here, since it commits the Soviet Union to the success of negotiations that are still highly complicated, despite the reported "break-throughs" of the weekend talks. In a separate section on the Middle Bast, Mr. Brezhnev in-directly criticized the United States, Israel, he said, pursues its "brazen provocative policy...
with obvious support from out-

Geneva Talks

Mr. Brezhnev repeated the Soviet call for the "earliest resumption" of the Geneva peace conference and described the decision of the recent Arab summit at Rabat recognizing the Palestine Liberation Organization as the representative of the Palestinian people as "very constructive."

(PLO leader Yassir Arafat arrived in Moscow today for his first visit since the Rabat meeting and his appearance at the United Nations. Presumably, Mr. Arafat will remain in the Soviet capital long enough to see Mr. Brezhnev, who should be back by Thursday. Mr. Arafat is seeking what amounts to diplomatic recognition from the Kremlin.)

The passages on China in Mr. Brezhnev's wide-ranging speech today were particularly significant because the Russians had not reacted specifically to the Chinese declaration of willingness to conclude a nonaggression pact. Much of the Chinese proposal has not even been published here. "At first glance, it would seem

that the leaders of the People's Republic of China also come out for normalizing relations with the Soviet Union. The trouble how-ever is that their words are divorced from their deeds," Mr. Brezhnev said. "Actually, Peking advances as

a preliminary condition, no more, less than the demand for withdrawal of Soviet frontier guards from a number of areas our territory to which the Chinese leaders have now decided to make claims," he continued. Mr. Brezhnev's statement reaffirms the Soviet position that any separation of forces would con-(Continued on Page 2, Col. 1)

Held in China By Kissinger

Peking Leaders Said To Write to Nixon

PEKING, Nov. 26 (UPI) .-Secretary of State Henry Kissinger today met for the fourth time with Chinese leaders in 24 bours and U.S. officials disclosed that the Chinese leadership has been in contact with former President Richard Nixon since his

resignation. Both Mr. Kissinger and Deputy Premier Teng Hsiao-ping hinted that Mr. Kissinger soon would invite one of Mao Tse-tung's top aides to Washington for the first time. The hints came in offhand remarks during Mr. Kissinger's talks with Mr. Teng and Foreign Minister Chiso Kuan-bua.

U.S. officials said Peking leaders have sent at least two letters to Mr. Nixon since his Aug. 9 resignation of the presidency. The contents of the letters and wbether Mr. Nixon replied were not im-

mediately revealed. Nixon Toasted

Mr. Nixon's reputation has not suffered here because of the Watergate scandal that led to his resignation. Mr. Chiso singled out a toest at last night's state banquet for Mr. Kisringer.

Mr. Chizo cited "the pioneering role of Richard M. Nixon" in reopening relations with China three years ago. Explaining the change-over from

Mr. Nixon to President Ford has been one of Mr. Kissinger's tasks in his talks with Mr. Chiao and Mr. Teng. Mr. Kissinger has said that U.S. policy toward China under Mr. Ford is the same as it had been under Mr. Nixon and the Chinese have applauded that assertion:

The other side of the negotiating table was changed, too. Gone was ailing Premier Chou En-lai, who handled most of the negotiations on Mr. Kissinger's six previous visits to Peking.

Mr. Kissinger saw Mr. Chou for a half-hour yesterday after his arrival, but the meeting was held in a hospital, and little of diplomatic substance was discussed. Mr. Kissinger was not expected to see Mr. Chou again before his departure on Friday. There was no word whether Mr. Kissinger would see Chairman Mao.

U.S. Asked to End Aid to UNESCO

WASHINGTON, Nov. 26 (Reuters).—Sen. Clifford Case, R-N.J., yesterday introduced legislation to cut off U.S. aid to UNESCO because it has voted to exclude Israel and support the Palestine Liberation Organization. At its general conference in

Paris last week, the UN's Educational, Scientific and Cultural Organization condemned Israel for allegedly changing parts of Jerusalem and harred Israel from UNESCO regional activities.

Explaining Weapons-Curb Accord

Ford Says Brezhnev Fears Wild Arms Race

WASHINGTON, Nov. 26 (IHT). -President Ford told congressional leaders today that Soviet party leader Leonid Brezhnev agreed to a tentative limit on offensive nuclear weapons because the Soviet leader "is concerned about a wild arms race."

The agreed ceiling on numbers of such weapons, reported to be fewer than 2.500 for each side. "provides adequate security for ooth of us," the President told top Democratic and Republican legislators during an 85-minute White House meeting,

Mr. Ford's statements were relaved to reporters by White House press secretary Ronald Nessen: The President returned Sunday night from the Viadivostok meeting with Mr. Brezh-

Mr. Ford said that the "rigid celling" on both the U.S. and Soviet arsenal of nuclear bombers and missiles was "less than the Russians bad planned and slightly above what the Americans were planning." The President, according to

Mr. Nessen, said "a cap" now has been put on the East-West arms

Responsible Accord

He said that the agreement was "responsible" and had been approved by Secretary of Defense James Schlesinger and Gen. George Brown, chairman of the Joint Chiefs of Staff.

Participants in the meeting said that the President was applauded by the congressional leaders. A legislator said that he was impressed with the approval of the Pentagon chiefs

leagues. However, there were some rum. bles of criticism and discontent from congressional critics of U.S.-Soviet negotiations.

favorable" reaction from his col-

Chilean Regime Breaking Leftist Guerrillas

By Joseph Noviteki

SANTIAGO, Nov. 25 (WP),-Chile's Revolutionary Left Move-ment, a clandestine guerrilla group which led internal resistance to the military junta here, is being put out of action, in a ferocious campaign by government intelligence services.

Since the underground battle between the junta and the MIR, as the nationwide group is known, entered its hottest phase early this month, the MIR's leader has been killed and an unknown number of activists have heen

no recent precedent in other South American countries where military dictatorships.

According to the sketchy eviterrogate people with any connection to MIR members. This groups, tends to spread fear

Brezhnev Rules Out Demand By Peking for Troop Pullback

(Continued from Page 1) cede some legitimacy to China's territorial claims. That has been the principal obstacle to Sino-Soviet border negotiations and, apparently, it still is.

The Chinese contend that the preseot frontiers were set in "unequal treaties" imposed during the last century on a weak China by imperial Russia. In 1969, after border clashes, the two countries began intermittent negotiations that were suspended last summer.

Saigon to Curb **Opposition Rally Protesting Trial**

SAIGON, Nov. 26 (AP).—The South Vietnamese government announced today that it will suppress a street demonstration planned to coincide with Thursday's trial of three opposition

The commander of the Saigon military region made the announcement less than 24 hours after the predominantly Catholic anti-corruption movement pub-licized plans for a demonstration Thursday by between 10,000 and 20,000 Catholics, students, laborers and disabled veterans.

The movement said the participants would gather at a suburban Catholic church for a mass, then "march peacefully" on the downtown area, stopping for short vigils at several goyernment buildings, including the presidential palace.

The command claimed "there exists a plot aimed at exerting pressure against the court dur-ing the trial" and said it would therefore "provide security protection at the court and surrounding areas."

The trial had been scheduled for Oct. 31, but was postponed at the last minute when opposition groups and police clashed. arrested. More than 30 revolutionaries have sought asylum in foreign embassies, abandoning the battle in a move that has clandestine groups have fought

withdrawal and territorial claims

questions, Western analysts and

Soviet sources agree, no talk of any agreements has any validity. To underscore its position, the Soviet Union today published the text of a telegram that was sent to China in response to its message marking the anniversary of the Bolshevik revolution on Nov. 7.

"The presentation of all kinds of preliminary conditions," the Soviet cable said, "is a repetition of the former position of the leadership of the PRC [People's Republic of China] and of course does not furnish foundations for an understanding."

Although Mr. Brezhnev himself did not use strong language in his attack on China today, his host, Yumjagiyn Tsedenbal, first secretary of the Mongolian Communist party, spared few adjectives in his denunciation.

"The anti-Socialist, anti-popular course of the Chinese leadership, which has completely broken with Marxism-Leninism." he said. rests on great power chauvinism and hegemonistic ambitions."

Mr. Tsedenbal's remote, land-locked country is nominally independent, but closely adheres to Soviet foreign policy line, particularly on matters relating to China. The occasion for the speeches was a celebration of the 50th anniversary of the Mongolian

Anger and Dissatisfaction

TOKYO, Nov. 26 (AP).—China reacted with "anger and dissatisfaction" to Mr. Brezhnev's rejection of its proposal for a nonaggression pact, Japanese reports from Peking said today.

Chinese sources described the rejection as a "manifestation of Soviet hegemony" which again revealed "territorial designs of the new czars," the reports said.

among possible supporters, sympathizers or family relations, cutting them off from the guer-

Nonactivists Heid

Church groups in relief work among political prisoners have noted an increase in the number of detentions of nonactivists: family members, former school friends and men and women suspected of having sheltered MIR members. There have been no proven reports of torture being used in the interrogations of nonactivists.

But church groups and foreign observers believe that interrogators use torture in questioning

The Revolutionary Left Movement grew from a group of student radicals at a private university in the southern city of Concepcion. It was a clandes guerrilla group in the late 1950s and emerged as a leftist party under the late President Salvador Allende, although it never joined his government.

Since the military coup which Mr. Allende died and his government was swept away 14 months ago, the MIR had been announcing abroad its plans for internal resistance. Inside Chile, there were occasional signs of MIR activity in the form of tiny hand-lettered pamphlets. The gov-ernment occasionally announced the seizure of arms caches it identified with the MIR.

The all-out sweep against the guerrillas began in late September, after the MIR publicly refused the offer of a truce that it said, had come from the Chilean Air Force intelligence service.
There was a lull in October, ap-

parently. Then on Nov. 1, a group of MIR guerrillas robbed a Santlago bank. It was the first known act of armed resistance. Four days later, government forces surrounded a house in a working-class suburb here and killed Miguel Enriquez, the 30year-old secretary-general of the

The MIR swore that the fight would go on, hut a few days after Mr. Enriquez died, another MIR leader. Humberto Sotomayor. sought political asylum at the Italian Embassy here. About 30 of 240 refugees in that embassy are believed to be MIR members and diplomatic sources report that 22 more are in the Colom-

Another MIR activist, a 26year-old woman, Lumi Videla, was found dead inside the grounds of the Italian Embassy Nov. 3, provoking a judicial investigation.

Italian diplomats told the police

that the woman had not been among the refugees in the em-bassy the night before, and that her body appeared just inside the embassy fence during the nightly curfew, when only police and military patrols are allowed in

Ford Tells Top Congressmen **Brezhnev Fears Arms Race**

(Continued from Page 1) that we wanted but they [both leaders] have put a cap on the situation."

The senator said that there was no provision made for on-site inspection to monitor the limit of land and submarine-launched mis siles and bombers, but that the President reassured the legislators about U.S. ability to monitor Soviet compliance.

'Difficult and Tough' Senate Republican whip Robert Griffin, of Michigan, said that Mr. Ford characterized the talks as "difficult and tough," conceding that at times, he doubted an agreement was possible, However, the President told the congressional leaders, according

to his spokesman: "It is my best judgment they are deeply concerned about the arms race. If we hadn't agreed to this, we would have had a new arms race of unbelievable cost. "This gives them security and

stability against us and we feel the same way. It provides adequate security for both of us." The agreement, besides setting a limit on total missiles and bombers, also puts a numerical

celling on the number of missiles

which are allowed to carry mol-

to develop weapons. Thus, the United States may continue work on the new generation of nuclear submarine called the Trident and the newest manned bomber, the Older Models Removed

Mr. Kissinger said that as these

new weapons enter the U.S. arsenal, however, older models must be removed so that the limit is

Mr. Ford told participants at today's meeting that he and Mr. Brezhnev will exchange written messages in about a week to formalize their oral agreement, Mr.

Sen. Thurmond said that the Russians "don't live up to their agreements." "I still have some reservations

and I probably always will until they [the Russians] abardon their goal of world conquest," he

Sen. Barry Goldwater, R-Ariz, told the Senate that he was "not convinced that it's in the hearts and minds of the Soviets to sit in a peaceful world with us." He said that he was "disturb-... hy the fact that we seem

to be willing to give anything away, willing to do anything just to make the Soviets happy." Sen. Goldwater, who did not attend the White House meeting, said this country had already "given away to the Soviets" a superiority in bombers, missiles and other such weapons.

W. Germans Hold 40 After Raids

KARLSRUHE, West Germany, Nov. 26 (AP).-West German authorities staged predawn raids in several cities today, rounding up about 40 persons suspected of belonging to or aiding "militant anarchist groups," the govern-ment's chief prosecutor said.

The raids, which reportedly took place without incident, were regarded as part of a recent government move against a possible resurgence of leftist extremist activity in the country.

Among those arrested was one of the lawyers for the Baader-Meinhof gang, Wolf-Dieter Reinhard, prosecutor Siegfried Buback said at a press conference. He was arrested on suspicion of being a member of a group that claimed responsibility for the death of a West Berlin radical, Ulrich Schmuecker, in early 1974 Mr. Buback said.

U.S. Warships **Quit Persian Gulf** WASHINGTON, Nov. 26 (UPD.

-The aircraft carrier Constella-tion has returned to the Indian Ocean after less than two days of sailing in the Persian Gulf, the Pentagon said today. The Constellation, accompanied

by two guided missile destroyers, entered the gulf Sunday for what the Pentagon officially labeled a "routine deployment." Officials said that the last U.S. carrier visit there was in 1948.

Mobutu Grants Amnesty, May Close Prisons

KINSHASA, Zaire, Nov. 26 (AP).—President Mobutu Sese Seko has marked his nine years in power by granting amnesty to all political prisoners and exiles.

He also announced yesterday that he was thinking of closing jails, "a colonial system which missed its aim of educating prisoners."

among others, the 4,000 paramilitary policemen of the late Moise Tshombe, of the secessionist province of Katanga. They took refuge in Angola in the 1960s.

President Mobutu said othermeans than jail should he found to punish "bad citizens."

Tunis Mulls Hijackers' Fate, But Trial Is Believed Unlikely TUNIS, Nov. 26 (Reuters) .--

Tunisian authorities will take several days to decide the fate of four Arab guerrillas who hijacked a British airliner but it is not likely that they will face trial, for fear of reprisals, informed sources said today. "There are many elements to

be taken into consideration and the government is likely to want to study all angles of the ques-tion first." they said.

One element is the fear that Tunisian diplomatic missions or interests abroad could be threat-

ened with guerrilla reprisals, the sources said. It is also considered unlikely

that they will simply be released because of the certain outcry from foreign governments espe-cially that of West Germany bekilled on the jet by the men.

The hijackers are believed to he detained in security police villas just ontside Tunis.

Reports said seven other guerrillas, who were freed from Egyptian and Dutch jails and flown here at the demand of the hijackers, were being held in a harracks in the city.

The Palestine Liberation Organization has asked for the hijackers to be handed over to and Tunisian officials have said the fate of the gunmen will be decided in consultation with But PLO representative Abou

Iyad, who took part in the long negotiations to rescue the hos-tages on the jet, left here last night after talks with President Habib Bourguibs.

The newspaper L'Action said today the hijackers had surrendered unconditionally to the Dolice This conflicted with earlier of-

ficial accounts of a bargain struck with the hijackers while the hostages and the jet were still threatened. The plane was originelly hijacked in Dubai Thursday with 42 passengers and crewmen abcard.

The authorities have not disclosed details of any guarantees given the hijackers but the gunmen were heard demanding ters).—Traders on the New Yor immunity from prosecution and protection from the PLO in exchanges from the cockpit to the eggrolls on the job. No reaso control tower.

He said he told the plan's author, Gordon Liddy, "to take his charts out and burn

> Mr. Mitchell said that at the second meeting with Liddy, on Feb. 4, he disposed of the matter by "turning it off directly."

> He said that at the third meeting, on March 30, the plan was presented again, this time by his deputy on former President Richard Nixon's re-election committee, Jeh Stuart Magruder, who had been at the first two meet-

> Mr. Mitchell said the political espionage plan was the last of some 30 or 40 papers presented to him by Magroder and that it was ribed as a "modification of the Liddy plan."

> The defendant testified: "As I recall, I threw it back to Magru-der and said. Not again, and thought that was the end of

Magruder has testified in this trial that Mr. Mitchell approved the intelligence-gathering plan. But another former Mitchell aide, Frederick LaRue, has given the court testimony backing Mr. Mitcell's account.

Mr. Mitchell, 61, one of five former Nixon aides being tried for alleged conspiracy to obstruct justice, was the first of them to

go on the witness stand. He was relaxed was in apparent good humor and answered ques-

tions rapidly Earlier today, defendant H.R. Haldeman's lawyer said that his client, the former White House chief of steff, "did not enter into a conspiracy . . . did not intend enter into a conspiracy" to cover up the Watergate affair.

Haldeman's Opening

Attorney John Wilson opened Mr. Haldeman's defense by telling the jury that the defendant knew very little about Watergate until former White House counsel John Dean 3d's disclosures on March 21, 1973, Mr. Wilson said that there is

very little on the White House Watergate tapes that show Mr. Haldeman "in the role of a planner." and that his client had been "more frequently in the role of a reporter telling Mr. Nixon what he learned recently learned or had been told, not what he

knew or participated tu." The Haldeman attorney began his opening statement by telling in judgment" on Mr. Haldeman's fate and that "much depends on your believing him and his role in this case." He told the jury it must understand Mr. Haldeman's "reliance on the integrity and guidance" of Richard Nixon. The lawyer said that Mr. Halde-

man had relied on information supplied by Dean, who "kept telling everyone no one in the White House was involved. Then came the discussion of March 21." Mr. Wilson recited the charges

against Mr. Haldeman and denied

his client was guilty on each one. Yesterday, after the prosecution ended its case—having presented 28 witnesses and introduced 31 tape recordings since the trial's start on Oct. 1—lawyer William Fundley opened the Mitcheli defense by saying that the former attorney general was a scapegoat whose "loyalty and belief in his president" kept him from ex-posing transgressions in the Nixon

White House,
"The evidence will show clearly the loyalty was not reciprocated, Mr. Mitchell's attorney said.

The other cover-up defendants are former White House domestic affairs adviser John Ehrlichman, former Assistant Attorney General Robert Mardian and Kenneth Parkinson, onetime Nixon re-election committee counsel

Karpov Looks To Chess Play With Fischer

MOSCOW, Nov. 26 (WP),-Anatoly Karpov, the pale, thin 23-year-old economics student who may he next world champion of chess, said vesterday that he thinks the present titleholder. Bobby Fischer of the United States, will eventually agree to championship match.

"Anyhow, I am going to get ready for it," Mr. Earpov told reporters. As to whether he could beat Mr. Fischer, Mr. Karpov said. "There is no point in playing if you don't expect to win."

On Friday, after an apparently exhausting 2 1/2 months of play, Mr. Karpov defeated fellow Rus-sian Viktor Korchnol, 43, in the final candidates' match of the International Chess Federation. Ordinarily, Mr. Karpov would now take on Mr. Fischer in 1975, but the mercurial American renounced his title in June in a dispute with the world chess body over rules. If Mr. Fischer sticks to his decision, then Mr. Karpov

He said that Mr. Fischer "Is a great player." But he asserted that his match with Mr. Korchnot was on a higher level than Mr. Fischer's title round with Boris Spassky.

gets the title by default.

No Fischer 'Reaction' AMSTERDAM, Nov. 28 (UPI).

-The International Chess Federation is trying to contact Mr. Fischer to arrange a match be-tween him and Mr. Karpov, the federation's president, Max Euwe, said vesterday.

"We have not had any reaction from Fischer after the Karpov-Korchnot match," Mr. Euwe said

Eels, but No Turkeys, Graced

The First Thanksgiving Table

University of Florida history professor specializing in the U.S.

Colonial period, says there were no turkeys on the menu during the first Thanksgiving feast in 1621. Prof. Turner said he has found the original menu drawn

up by William Bradford, the governor of Plymouth Colony and the host of the three-day feast. Turkey was not on the menu,

but it did include a platter of eels.

According to Prof. Turner, the menu also included clams,

leeks, ducks, cranberries, geese venison, corn bread, salad,

"A good deal of beer flowed during those 72 hours," said the professor, who found the menn among Gov. Bradford's

notes, "Even small children polished off a mug or two of beer with every meal.

"Water was still thought to be unhealthy for the insides." he said. We forget Pilgrims were Elizabethans, and therefore

There were 90 party crashers, Prof. Turner said, It seems Gov.

Bradford invited an Indian chief, Massasoit, who in turn invit-

"If the Indians hadn't brought along large amounts of venison, food might have run a little short." Prof. Turner said.

"Without the help of the Indians, the Pilgrims probably would already have starved to death, so they wanted to show the red men their appreciation," Prof. Turner said. "They also

wanted to show off their bountiful table, so the Indians would

know Pilgrims weren't as hopeless a bunch of settlers as they

GAINESVILLE, Fla., Nov. 26 (AP) -Eldon Turner, a

"That disposes of the Brown matter," said the committee chairman, Sen. John Stennis, D-Miss., after announcing the com-mittee decision. Gen. Brown, in

remarks Oct. 10 at the Duke Uni-versity Law School, had asserted that Jews "own, as you know, the banks in this country, the news-papers," and had such a strong lobby "you wouldn't believe it." His words were hotly disputed in the committee. Gen. Brown apologized and has been chided hy President Ford, but Sen.

Thomas McIntyre, D-N.H., declared that the remarks raised questions both about Gen. Brown's judgment and about his usefulness to continue as head of the Joint Chiefs.

Sen. McIntyre called for the general's resignation and de-manded that he be called before the committee to testify about the incident.

'Stupid Bemarks'

"Gen. Brown showed himself to be rather stupid." Sen. Mc-Intyre told reporters. "The general's statement was more than just a stah et the Jewish lobby. Does he feel our policy in the Mideast is incorrect? Does he feel the No. i military man should be commenting on it and making such stupid remarks as be made? It's a matter of civilian control of the military." Sen. Stennis, however, opposed

Sen McIntyre's demand for a hearing, and carried the commit tee with him. Only Senators Mc-Intyre, Renry Jackson, D-Wash. Stuart Symington, D-Mo., and Harold Hughes, D-Iowa, voted for the motion.

Sen. Stennis said: "I think he's very fine military officer. If he was arrogant, unyielding, nu-compromising, that would be a different matter." But since he had recognized his error and shown contrition, Sen. Stennis said, the incident was closed. Sen McIntyre said he believed that Jewish organisations had reduced pressure for Gen. Brown's ouster, lest this give proof to his description of the "inexorable power of the Jewish lobby."

In Sacramento, Gen. Brown said yesterday he was "awed and appalled" hy the reaction to his remarks.

He said he was disturbed "by the divisiveness this incident has caused. I understand the upset and dismay that has been expressed."

Addressing a meeting of the Comstock Club, a husinessmen's group, Gen. Brown said he has received some letters of support of a type I totally reject as alien to America and alien to me." He said he had learned two lessons. First, "I have learned a good deal about the corporate structure of banks and newspa-

At House Hearing

Rockefeller Is Assailed by Left and Right

By Richard L. Lyons

WASHINGTON, Nov. 26 (WP). Nelson Rockefeller was attacked by the far left and right, was accused of killing unboro children and hardened criminals and was supported by a black group yesterday as the House Judiciary Committee continued hearings on his nomination to be vice-presi-

Arthur Eve, a black New York State assemblyman who was chairman of the observer team at the 1971 Attica State Prison riot, accused Mr. Rockefeller, then governor, of "engineering the massacre," in which 43 lives were lost when state police retook the prison. Mr. Eve criticized Mr. Rockefeller for not going to Attics and for sending the police in with guns. Several committee members observed that Mr. Eve was stating his conclusions, not proved facts.

Curtis Dall, for the conservative Liberty Lobby, opposed the nom-ination on a number of grounds including his statement that Mr. Rockefeller masterminded adop-tion of the 25th Amendment, under which he was nominated, to find a backdoor way to the White House, which Mr. Dall said he could not win by conventional political means.

Anti-Abertion Group

Dr. Ada Ryan, speaking against Mr. Rockefeller for the National Right to Life Committee, said of Mr. Rockefeller, "In his quest for population control at any cost he has helped to bring about the destruction of a whole segment of our society-the unborn The anti-abortionists oppose Mr. Rockefeller because he vetoed a bill to repeal New York's abor-

Jeanne Mirer, opposing Mr. Rockefeller for the National Lawyers' Guild, a leftist group, read off a long list of statistics of the Rockefeller family's control over major parts of the economy. These were figures Democrats have sought but have not been able to have furnished. Asked the source of the statistics. Mrs. Mirer said It was the Village Voice, a weekly liberal newspaper in New York City.

and is a full-time job. With this in mind I intend to avoid even This caused Rep. David Dennis, R-Ind., to observe that the committee "has heard a lot of testimony today with very little merit.

We've had it from the left and the right, and none of it's worth anything. There are reasons to be against Mr. Rockefeller, but

we're not hearing them." Conservative Opposition

The American Conservative Union also opposed Mr. Rockefeller. A statement prepared by Barbara Keating, Conservativeparty candidate for the Senate from New York, criticized Mr. Rockefeller especially for his abortion stand, although the ACU has not polled its membership on the issue. Miss Keating said it would be "all but impossible to find an issue of such importance on which there are such diametrically opposed views held by a President and a man he has chosen to be vice-president."

The only support for Mr. Rockefeller yesterday came from the Council of 100, a black Republican

Ford Vetoes Bill On More School Aid for Veterans

WASHINGTON, Nov. 26 (AP). -President Ford today vetoed a bill that would have increased veterans' education benefits by 22.7 per cent. He called on Congress to enact a bill that will be less inflationary, increasing benefits by 18.2 per cent.

Press Secretary Ronald Nessen said that Mr. Ford expected that the Democratic-controlled Congress might override the veto.

Mr. Ford said that he was prepared to accept a veterans' benefits increase of roughly 20 per cent, but that he could not stify two "defects" in the measure, a provision for \$600-a-year loans for veterans who were unable to get financing from other federal agencies and also extension from 36 to 45 months of veterans' eligibility for undergraduate college training.

Mr. Ford earlier had suggested an 18.2-per-cent increase for most education benefits for 4 million eligible post-Korea veterans and 7 million Vietnam era veterans. Mr. Nessen said that the Pres-

ident told the congressional leaders, "Believe me, it wasn't an easy decision."

ber of Philadelphia's City Council, urged confirmation on the basis of Mr. Rockefeller's record as governor of New York for 15 years. He met the state's problems with "determination, energy, creativity and considerable suc cess," she said.

Mrs. Allen lauded Mr. Rockefeller's performance in the fields of mass transit, housing, education and health, but said she "deplores" his role in the Attica

Coal Union Panel Accepts U.S. Pact

WASHINGTON, Nov. 26 (AP). -Regional leaders of the United Mina Workers, reversing themselves, today approved a contract offer from the coal industry and agreed to put it to a vote by the union's 120,000 members, who have been on strike for 14 days.

UMW president Arnold Miller announced the bargaining council's approval and said that if the membership ratifies the pact, it may be possible to reopen the mines sometime next week.

The council had rejected the proposed contract, 21-11, earlier in the day but within hours reconvened and changed its position. Mr. Miller gave no reason for the change, other than to say that it was part of the "democratic process working at its finest."

Rome Jet Evacuated

ROME, Nov. 26 (Reuters) .-About 40 passengers on a TWA jumbo jet were slightly injured today in sliding down emergency exit chutes at Flumicino Airport. The crew had noticed smoke pouring from a light fixture.

He was honored by the British ter. He proclaimed that art was worth fighting for as much, if not more, than anything else.

He closed the magazine in 1949, announcing tartly that the pub-lic was apathetic and that a decade was enough "to devote to a lost cause such as the pursuit and marketing of quality in contemporary writing."

Chang Ynng-yi

TOKYO, Nov. 26 (AP).—Chang Yun-yi, 82, a member of the Central Committee of the Chinese Communist party, has died of illness in Peking, the official Hsinhua news agency reported

Nov. 19. The nature of his illness was not disclosed.

In a broadcast monitored in Tokyo, Hsinhua said that Mr. Chang also was a member of the Standing Committee of the Third National People's Congress and members of the National Defense

The news agency called Mr. Chang an "outstanding member of the Communist party of China," and said that his death is "a big loss to our party and

Accuses It of Opposing Political Freedoms

Spanish Cardinal Denounces the Falange

By Miguel Acoca

MADRID, Nov. 26 (WP).-In a rebuke to the Falange—Spain's only authorized political party for allegedly opposing others' political freedom, Vicente Cardinal Enrique y Tarancon, president of this nation's Catholic Bishops! Conference, yesterday urged the church to support all those seeking to create a multiparty democracy here. The cardinal made a speech

devoted largely to the political situation as he opened the hish-ops' annual Madrid conference on spiritual and temporal problems of the church in Spain. Although Cardinal Tarancon

left no doubt that he war attacking the Falange, he did not name the militant right-wing organization, which has occupied a privileged position since Generalissimo Francisco Franco's Civil War victory 35 years ago. Reconciliation Goal

The church leader criticized the party's recent "emotional" allu-sions to its role in the war, charging that the allusions constituted a "grave obstacle to the reconciliation" of Spaniards divided since the conflict.

Reconciliation, he amounced, will be the main theme of the conference, which will end this weekend: He said that the church'e position on the peaceful coexistence of all Spaniards will be made public following a debate by the bishops.

While attacking the extrema

right, he also said that the church could not back Communism because of its "atheistic doctrine." But he made it clear that the church recognizes the right of Spaniards to different political views. The Communist party has been outlawed in Spain for 35 years.

The cardinal asserted that the church could not identify itself with any political group but had to work for civil rights, political freedom, reconciliation and justice for all Spaniards. Limited Activity

His speech was his most significant political statement this year, when Spain has been divided by the issue of permitting limited political associations to operate. The issue is being debated by the government and by the National Council, Spain's upper chamber, which is controlled by the Falange and other

We don't change for the sake of change - but to provide greater safety, comfort, durability and economy. That's why all the way back in 1966 Volvo had features that still rank among the

best of today. The seats were designed in collaboration with medical experte. The brakes were dual circuit, triangular eo that they would retain 80% of the braking power should one of the circuits fail. The passenger compartment was surrounded by energyabsorbing zones, three-point seat belts were standard. And the rust-protection was superior to most other cars.

Volvo lasts long and that Volvo durability places a great responsibility on our shoulders. That's why we're now introducing the Volvo 240 series - a whole new generation of Volvos. The 242, 244 DL and GL, and 245 DL.

The robust, tried and tested 2 litre engine B 20 F, featuring a continuous injection fuel delivery system, gives lots of power Yet run on low octane petrol. Year after year.

Spring strut, front suspension. Rack and pinion steering. Broad rims. Steel radial tyres and much improved rear suspension, make the Volvo 240 series great cars for the road and comfortable too! The new seats have a greater adjustability. And the

adjustable lumbar support has been made even better than before. We've increased the efficiency of the heating and ventilation system, and the twelve airducts are evenly distributed throughout the passenger compartment.

The braking system has a new, unique braking cylinder with two steps. Should one braking circuit fail, the pedal travel

will remain practically unchanged. Our experiences of the Volvo safety project - VESC -have been applied to the full. The energy-absorbing front has been made even more effective.

And we have used more hot-galvanized parts to extend the

long life of a Volvo. The Volvo 242-two door sedan, 244-four door sedan and 245 station wagon are cars of today - ready for the driving world

tion at almost any place you care to name.

The Volvo Duty Free Plan. And if you're travelling, or temporarily living abroad we can have a new Volvo ready and waiting for immediate collec-

And because of international agreements it will be a Volvo you can buy at a substantial saving. Check with your local authorities about possible import charges.

To see if you qualify, and for full details just send in the coupon below. Or contact your nearest Volvo dealer.

U.S. Said to Assist Cambodia on Air Targets

By John Burgess

BANGKOK, Nov. 26 (WP) .-American military analysts are making recommendations on bombing targets in Communistcontrolled areas of Cambodia to the military command in Pinnom Penh, according to a well-placed U.S. military source,

The recommendations, based on aerial reconnaissance flights conducted several times daily by U.S. jets, are in apparent violation of the congressional ban of a direct U.S. military role in Cambodia.

A congressional source said he thought the ban, which went into effect Aug. 15, 1973, definitely prohibited any advisory role for Americans in the Cambodia fight-

The intelligence flights, about three sorties a day, are carried out by RF-4 Phantom jets belong-ing to the 432d Tactical Fighter Wing, stationed at Udorn Air Base in northeastern Thailand. Before the Ban

About two weeks before the ban against a U.S. combat role went into effect, the Pentagon said that it understood it could continue "marmed reconnais-sance flights for the purpose of gathering intelligence."

Since the ban, several RF-4s have returned from missions over Cambodia with minor battle damage, but none has been shot down,

Once the film taken on the recommandance flights is back at Udorn, it is studied by American photosnalysts who identify tar-gets, look for camouflaged posi-

tions and make recommendations for bombing strikes.

Their reports are passed on to the U.S. Support Activities Group, the Air Force headquarters complex at the Nakhon Phanom Air Base, also in the northeast. This unit forwards it to the Cambodian Air Force, presumably through

the U.S. Embassy in Phnom Penh.

Another Pass

After Cambodian planes make their strikes, U.S. reconnaissance jets make another pass over the area to film the results. The analyses of these photos are also processed at Udorn and the reports passed on to the Cam-

An "after-action" analysis last summer reportedly found 100 destroyed trucks scattered along a road in a Communist area,

A U.S. Air Force spokesman in Bangkok refused to answer questions about the reconnaissance missions. "We do not discuss reconnaissance activities anywhere in the world," he said. U.S. planes, stationed at other bases in Thailand and on Okinawa, also carry out reconnaissance missions over North Viet-nam and Laos. The North Vietnamese government and the Com-munist faction in the coalition government in Laos charge that the flights are in violation of the peace agreements affecting

All photo analysis is carried on at Udorn. In addition, the United States also carries out electronic intelligence, monitoring radio signals throughout the area by

Grafted-Hearts Patient Well Despite Suffering a Stroke

CAPE TOWN, Nov. 28 (Reuters).—Ivan Taylor, 58, suffered a minor stroke yesterday during the grafting of a child's heart to his ailing heart, but the joined organs are functioning well and surgeons are optimistic, it

rope was concerned over heavy traffic of Soviet bombers from was reported today. Mr. Taylor's right arm was afthe Kola Peninsula into the North fected by the stroke, but a Groote Schuur Hospital bulletin today Atlantic He suggested that in the future, remotely piloted vehicles said that he was perfectly conwould provide better intelligence scious and the complication would about these forays than do the British and American fighters probably be only temporary.

The bulletin added: "The patient's condition is excellent from the cardiac point of view. With our previous experience in such operations in experimental work, we estimate the contribution of the transplanted heart to be between 40 per cent and 50 per cent of the cardiac output of the pa-

in view of the development of a Mrs. Jeanette Schrickker, a colored woman, meanwhile told of her decision to allow the transnew Soviet Tandem-Delta bomber and the deployment of the variable-geometry bomber known as plant of the heart of her 10-

ically dead after a car crash, into the body of the retired mining engineer, who is white.

"When I signed the paper to give the doctors permission to use Jennifer's heart I was still in a state of shock and did not quite realize what I had done.
"But thinking about it now, I would have done the same. It is good to know that even in death Jennifer was able to save another life," Mrs. Schrickker said, Doctors kept the dead girl's heart heating in her body for several hours until Prof. Chris-

Dr. Jacques Losman, 33, who assisted Dr. Barnard in the operation, said a main problem now is how to bring about synchronization of the two hearts, which are not beating in unison.

tiaan Barnard, 51, and his team

of surgeons were ready to start the operation at midnight Sun-

They are joined aorta to aorta and atrium to atrium, with the tion of the diseased heart's left

Dr. Barnard considers that the advantage of the new operation over the straight heart swap, which he pioneered in 1967, is that if the implanted heart is rejected by the body, the patient's own heart may keep him

Dr. Losman came from Belgium to South Africa in 1969, at Dr. Barnard's request.

The Belgian has headed the research laboratory of Groote Schuur Hospital for six months and ploneered the work on using a transplanted heart as a "helper" for a diseased heart.

Longest Survivor Is III RICHMOND, Vg., Nov. 26 (AP). Louis Russell jr., 49, the world's longest - living heart - transplant patient, was reported in serious condition today at the Medical College of Virginia after suffer-"a serious disturbance in heart rhythen" this morning.

Mr. Russell an Indianapolis industrial arts teacher, who received his transplanted heart at the Medical College on Aug. 34, 1968, returned to the hospital here Oct. 7, complaining that he was not feeling well. On Oct. 11, doctors implanted a command pacemaker in his body as a precautionary measure.

EEC Urges Members

To Use More Coal BRUSSELS, Nov. 26 (UPI) .-The European Economic Community nations should use more coal for energy production to reduce dependence on oil, the Common Market's Executive Commission said yesterday.

The recommendation was part of a commission energy policy to be debated when ministers from the nine nations meet here Dec. 17, It called for keeping coal production at its present level of 250 million tons despite the expected closing of some mines.

Seeking Law Beneath the Sea

The attempt of Norway and the Soviet Union to work out some lawful distribution of the lands beneath the sea to which they both lay claim involves a diplomatic venture resembling a wrestling match by scuba divers in a bed of kelp. The law of the sea, as a number of recent conferences have demonstrated, is as complex as Byzantine theology, and the practical reasons for resolving its dilemmas are many and vital to the whole world. The frictions that its obscurities have engendered are as varied as the codfish war off Iceland and the conflicting claims of Greece and Turkey to the seabed near their shores. But few of the disputes over the land beneath the sea have as tangled a history as that which is, fortunately in mnted form, developing in Europe's extreme northern waters.

Both Norway and the Soviet Union want the oil that lies beneath the Barents Sea, where Norway curls around the northern end of Scandinavia and meets that part of the Soviet Union which was seized from Finland during World War II. The Barents is a very important sea highway for the northern ports of the Soviet Union and It is bounded on the north, more or less, by the Svalbard Archipeiago, whose chief island is Spitsbergen. Just what line can be drawn to separate the Norwegian share of the continental shelf from that of the Soviet Union is difficult to decide, given the fluid state of the law of the sea. And then there is Spitsbergen itself, which would be essential to any exploitation of oil resources in the

Spitsbergen is a barren land-on the surface, at least-which has a checkered history. There were many wrangles there, in centuries past, over whaling, as the northern European nations hunted whales around the island and boiled the binbber ashore. As whaling diminished, so did interest in Spitsbergen, until its coal beds began to take on significance, Norway claimed the archipelago. but its assertions were not agreed to until 1920. And even then the Norwegians shared the coal mines with the Soviet Union.

Spitsbergen and the Barents Sea were the scene of much naval activity during World War II. but Norway's sovereignty over the islands is now legally unchallenged. Whether and how the new energy developments will alter this status is one of the critical points in the negotiations now beginning in Mos-

For the moment, these negotiations are bilateral. But as a case history in the development of the law of the sea, with all its implications for a world that needs the sea for transport and for the wealth that lies beneath the surface, no country can afford to ignore the Barents Sea. If the last frontier on earth is to be used rationally and equitably, avolding the accumulation of ills that accompanied man's conquest of the soil that lies above the low-water mark, such bargaining as is now going on in Moscow must be watched with care, not only because of the importance of the oil of the Barents, but for all the precedents that might be drawn from it.

Semi-Independence

One year after hearing President Nixon's brave talk of Project Independence, the federal government has managed to assemble the data needed to start formulating a national energy policy. It has gone little

The target date of 1980, unrealistic from the moment it was uttered, has quietly been extended to 1985 for the culmination of national planning. The real goal of Project Independence is more modest than that enunciated by Nixon: 'to meet America's energy needs from America's own energy resources." Now, according to the Federal Energy Administration, the objective is "to reduce United States valuerability to disruptions of energy imports -a far more practical effort.

It is a commentary of sorts on the relatively primitive nature of the government's energy expertise that it has taken this long merely to amass the information about energy use and availability on which the policy choices will have to be based. The Project Independence report released this month, ali 800 pages of analysis, contains few actual policy proposals.

Yet two themes, not entirely palatable to the administration or to the major energy industries, weave through all the analyses: first, the desirability and feasibility of a strong energy conservation program and, second. strong arguments for the government to take a more active role in directing how energy is to be used than a traditional freemarketeer would like. Both these themes are directly contrary to the previous energy studies that formed the analytical basis for whatever passed as energy policy.

Though the previous studies of 1971 and 72 recognized the possibility of politically inspired interruptions in the flow of oil from abroad, the gulding assumption was that "political, economic, and logistical considerations would not restrict the availability of foreign oil." This naive assumption led to a projected growth rate in energy consumption of about 4.2 per cent yearly. Now, sadder but wiser, the government energy planners concur in the estimate of the Ford Foundation's energy policy project for a long-term growth rate of 2 per cent.

Could the United States in fact be seifsufficient in energy by 1985? Yes, the FEA study conclodes, but only if the price of crude oil remained at the dangerously high level of \$11 per barrel. "This would imply consistently higher domestic energy prices, a reduction in real gross national product, inflation, and possible local or sectoral economic dislocations," the FEA states. Reducing America's vulnerability, therefore, is not necessarily to advocate a program of zeroimports.

The Project Independence working group has not given the federal government an energy policy. Many of its specific findings on energy alternatives to fossil fuels or the means of conserving energy in transportation and industrial sectors are already points of heated dispute. But at least the federal government has its own data, relatively independent from pressure-group bias, and can no longer use the necessity of getting the facts as an excuse for avoiding the difficult decisions of project even semi-independence.

THE NEW YORK TIMES.

International Opinion

Ethiopian Killings

This was a carefully planned seizure of power from within by a group of ambitious and conscienceless men by means which have proved fatal to the genuine aims of the more idealistic supporters of the Ethioplan revolution. It is not enough to deplore such a terrible lapse into savagery. The new group have in their power perhaps another 200 prisoners, and every effort ought to be made by those with influence in Addis Ababa to save them from a like fate.

-From the Times (London).

India's Nuclear Ambitions

The political echoes of India's nuclear expioslon have hy no means died away. In spite of the feeling of self-confidence it induced at home, it must be causing the government a considerable headache. Pakistan has now proposed to the UN that South Asia be declared a nuclear-free zone and has received support not only from Nepal and Sri Lanka, but from Bangladesh and Afghanistan-two country not normally numbered among Pakistan's staunchest allies. And India's protestations that it would never engage in nuclear war begin to look suspect

when it opposes this resolution, in spite of having given open support to a similar one on the Middle East put forward by the Shah of Iran. The misgivings are strengthened by the inability of India's Atomic Energy Commission to find a plausible explanation of what they mean by the "peaceful, commercial exploitation" of nuclear explosions. -From the Neue Zuercher Zeitung (Zurich).

Italian Communists

The electoral statistics suggest that about two-thirds of Italy's mainly conscript army of 306,000 men supports the Communist party . . . This may not matter very much provided the Italian Communist party continues to pursue in office the policles it has for long pursued in opposition . . . Unconfirmed reports from Bologna suggest they might agree to Italy's remaining in NATO on the grounds that the existence of the Warsaw Pact justifies NATO. The Italian Communists do not preach world revolution and do not say that once in power they would intend to keep it by oppressive means. But will Mr. Kissinger-let alone the Senate Foreign Relations Committee—believe them? What evidence have they to do so?

DARIS-There has been much public talk about a pentagonal world founded upon relationships hetween the United States, Russia, China, Japan and Western Europe and there has also been talk (now less often heard) about a triangular world based on a balance between the first three. But the quintessential policy devised by President Nixon with Henry Kissinger's aid and now, it would seem, embraced by President Ford, still rests on the super-

power balance between the United

States and the Soviet Union. One principal factor contributing to Washington's original shift in attitudes toward Peking was the desire to approach Moscow through the back door. Nixon and Kissinger realized the American diplomatic posture would seem flabby to the Kremlin so long as Washington had no contact at all with the largest nation on earth because the United States insisted on the ridiculous pretense that Taiwan, an offshore island, represented 800 million Chinese. It was as if some loony capital in 1814 claimed the exiled Napoleou's domain of Elba spoke for "France."

To approach Mao Tse-tung, Nixon used the Romanian leader, Ceaucescu, to herald what was coming and then sent Kissinger on a secret trip to Peking via Pakistan, Indeed, so eager was the American administration to curry Chinese favor that its policy deliberately "tilted" against India, China's adversary.

The Future

As Kissinger himself expressed it the Peking and Moscow summits following the U.S. policy switch differed accordingly: Nixon's China trip marked a hifurcation in the road, an event that could lead to major changes hy Peking But it left much for the future, and one could not judge its accomplishments. The Moscow summit sought agreements that would be justifying in themselves. It hoped either to achieve accord on the SALT disarmament discussions or a breakthrough leading to second

Now, after the Ford-Brezhnev Viadivostok meeting, both the American and Soviet sides stress that hreakthrough has come. Should this prove true, it would mark an enormous step. But it will take months before we know

the answer.
In the meantime Kissinger has bounced over to China again to explain his ideas and presumably, among other things, to stress that the United States had nothing to do with selecting Vladivostok as a site for talks, a city whose governance by Moscow is not yet wholly endorsed by Peking

The Chinese are less than enthusiastic with their designated role as a U.S. stepping stone to Russia They have cooled their never oven-like warmth toward Washington and are disappointed with their old friend Kissinger, Trade with America hasn't reached promised levels. There is irritation with U.S. attitudes on

Admires Nixon

Moreover, Peking makes plain it still admires Nixon more than Ford. Chou En-lai, commenting to me on Watergate a year ago, said: "You have hed such things occur in your society and undoubtedly will again." Chou, often seen as the man at the top who is America's best friend is now sick and old-as is Mao, who accepted his analyses and received Nixon, Chiao Kuan-hua, the new foreign minister, is a Chou man who liked David Bruce, first my life with my toes carling in conflict to explode in the Palestine area and is busily sending the Arabs even more arms than the United States is sending Is-

China down. Now he can coddle U.S. fancies and still cater to our peace-mongering instincts and hudgetary pinch; or get tough in

Key Position

Whatever happens, Moscow has a key position, similar to that once claimed by Washington. It can swing either way. Russia has reached a military ascendancy which enables it to negotiate from strength—as it used to com-plain the United States did. The critical test will be on Israel,

Kissinger made the mistake of trying to squeeze the Soviet Union out of the game of arranging an Arab-Israeli solution but, after a period of apparent success, he has seemingly lost that attempt. The Kremlin can now permit a new

of the ball. He could have played BETRUT.—Sobriety, not exultatioo, is the right reaction to the new arrangement to limit strategic weapons blocked out by President Ford and Communist party secretary Brezhnev at Via-For around the world, and especially bere in the Near East, the Soviet Union and its friends

> are making great gains at American expense. The world is paying a high price for detente, and the United States, far from glowing cheerfully, should be flying warning signals. The most striking sign of Soviet success is the hlow which has

been delivered to Henry Kissinger's plan for a political settle-ment here in the Near East. The basic idea was for a step-by-step approach toward accord between Israel and Egypt. Since Egypt would not go it alone, another Arab partner had to be found for each step of the talks. The designated partner for the next stage was Jordan.

But Jordan has been knocked out of the game by the accep-

Letters

Diplomacy by Posse One cannot quarrel with Mr. Sulzberger's conclusion that perpetual motion is no substitute for diplomacy (IHT, Nov. 18). Why then is it impossible for Mr. Kissinger (he is not the only one) to follow his own precept and stay home?

We are often told that with secretaries of state, ministers and presidents calling up at any hour or pouncing out of the sky at a moment's notice, the ambassador. be he ignoramus or expert, has dwindled into a ceremonial appendage,

If jets and electronics can seriously diminish an ambassador. then he is not filling his role as Johnny-on-the-spot. With a modicum of guile, he can circumvent the unwise or offensive instructions he gets from headquarters and carry out others in a manner of his own choosing. He and his staff can best decide at what level to make a demarche, and above all when and to whom.

Even when they descend in person upon their hapless envoys, American officials need guidance. Their success with Brezhnev or Tanaka, with Giscard or Sadat, depends heavily on the man who knows how these gentlemen are feeling and what's on their minds. And since Washington officials are briefed in haste and are not all as retentive as Mr. Kissinger, they often require a pull on the checkrein in mid-

course. I have spent many hours of

my shoes as I listened to "experts" from Washington laving down the law to foreign officials. One of our senior diplomats, who was sweeping up crockery after one of these visitations, put the matter with classic concision: "A few facts," he said, "would have been more useful than a posse."

Summitry, alas, is as old as the wheel. It has rarely produced anything permanent, or even agreeable since Caesar met with Cleopatra. At solemn ceremonials (nowadays mostly funerals) exalted personages have their uses. In other circumstances, and even in the jet age, the advice of Philippe de Commines five hundred years ago remains unexceptionable: "Two great princes who wish to establish good relations, should never meet face to face; they should communicate through good and wise ambassadors."

Unhappily the latter commodity is in short supply, partly because patronage has undermined the embassies that should enable our leaders to stay home and look after policy. For the peripatetic style is only a symptom of an infection far more deeply rooted in the body politic than Mr. Sulzberger indicates; it reflects our internal dispersion, our drift toward imperial government, and the insidious influence of totalitarian methods on modern diplomacy. Mr. Kissinger may perhaps he nardoned for practices which he has himself condemned but which only a Hercules of courage and objectivity could modify.

JOHN BOVEY

A Negative View

Israel, South Africa And the UN Assembly

By William F. Buckley Jr.

NEW YORK—The day before South Africa strategists saw their opportunity. UN General Assembly, a move was taken against South Africa, the implications of which harmonize with the invitation to Arafat, and possibly outweigh it. The two episodes suggest what has struck many observers of the UN as inevitable: namely, that the General Assembly of the UN is going down into that state of ratified uselessness which its ir-

responsibility has invited.

Concerning South Africa, here is the background, a) Everybody dislikes apartheid. b) Everybody is supposed to dislike all forms of tyranny. c) In fact, at the UN, tyranny-defined as rule by the minority, by force—is the modus vivendi of most of the voters. The tyrannies range from such absolute despotisms as China's, to the comparatively benign despotism of, say, Kenya. d) But the only tyrannies against which the UN mobilizes are those that are either counter-revolutionary in nature (e.g. Chile's), or racial: specifically, white against black (South Africa, Rhodesia). White against white (Russia) is all right, and black against brown (Uganda) is all right, but not white against black. e) Accordingly, South Africa has been the special target of the highly speci-fied moralism of General Assemhly rhetoric.

Charter Limit

Now the problem arose a year ago: What could the General As-sembly do about South Africa, given that the Charter prescribes that only the Security Council can admit a member to the UN, and only the Security Council can expel a member. In the Security Council, anti-South African specialists correctly concluded, Britain, the United States, and France would veto any move for expul-

So they hit on the idea of "denying" the credentials of the ambassador dispatched by the government of South Africa as its representative. Now in order to get a seat in the General Assembly, a thing called the Credentials Committee receives the papers of a delegate, and satisfies itself that these are properly executed by a responsible official of the government dispatching said delegate to New York (usually the secretary of state, or his equivalent). This is a purely formal operation, but in it, the anti-

Why not either pack the Credentials Committee so that it will "deny" the anthenticity of the letter of accreditation; or, if they

don't succeed there, why not ack the General Assembly to vote to reject the conclusion of the Credeutials Committee? Last year, the gang took this strategy right to the brink. The General Assembly stopped just short of taking the credentials away from the South African

This time they went all the way. First they asked for South Africa's expulsion, which was vetoed. Then they denied the accreditation. And now by a vote of 99 to 22, the General Assembly has denied the South African representative the right to set foot inside the UN. This is, of course, the equivalent of ejecting South Africa. To be a member of the UN without the right to select your own ambassador makes membership in the UN an ah-

Cheaper Outside

So. South Africa will soon discover what Taiwan has discovered. That life outside the UN is altogether possible. Indeed, it is cheaper, and allows a country that extraordinary liberation of divesting itself from institutional attachments altogether hypocritical in nature.
The UN's simultaneous invita-

tion to Arafat of the PLO to speak as the representative of the Palestinian people undermines the constitutional structure of the UN, which although it hasn't always recognized de facto governments has never recognized goternments in exile. The temptation to do this arose last year in connection with Cambodia. If the General Assembly, following its own logic, declines at the next session to recognize the Israeli ambassador, it might go so far as to rule that Arafat is the logical representative of the Israeli people.

To such preposterous lengths the General Assembly is apparently willing to go, and the result, of course, will be that it will gradually phase out as an organ with which serious people do business. Its passage from the scene would leave this observer dry-eyed, but the tragedy is that in the process, it is coaxing along another war in the Mideast, and this could be the big one,

the electoral victory of Constantine Caramanlis is a bright spot, the countries of the northern Liediterranean shore all have disciplined Communist movements now knocking at the gates of power.

Inflation has sapped the will of almost all other European countries. Even the doughty Helmut Schmidt in West Germany is having to ease off his determination to govern with authority. Valery Giscard d'Estaing in France is turning out to be about as friendly to the United States as Gen. de Gaulle. So from the Soviet point of view, the European situation could hardly be more favorable.

Japan's Role

Except for Iran, weakness epproaching disintegration marks the countries of South Asia, and in East Asia opportunity beckons the Russians. As the fall of Premier Kakuei Tanaka indicates. the Japanese have not figured out the role they are going to play in a world transfigured by the sudden spurt in the prices and importance of basic commodities, Tokyo is more than ever open to Soviet blandishment

The Chinese-by the hint of a settlement of the border dispute which they dropped in the Nov. 7 note to Russia-have underlined a strong future possibility. That is that Peking, while not making ft up with Moscow, will at least stop treating the Russlans as Public Enemy No. 1 when Mar Tse-tung dies.

In these conditions, there is n place for American elation abou the Vladivostok agreement. It a useful supplement to the 19... SALT accord at best. Far from exulting a hout breakthroughs. American officials ought now to be especially wary. The Russians are on the move, and this is just the wrong time to let down the

r. Ceausescu's hands.

Franz-Josef Strauss

nchanted by the government's policy of accommodation with the Soviet Union, has been turning Democrats in state and municipal

Last spring, this shift helped to precipitate Willy Brandt's resignation as chancellor and his re-placement by Helmut Schmidt While Mr. Schmidt's personal standing with the public appears to be high, he so far has been unable to transfer his popularity to his party, and most political observers here agree that if the trend continues the Christian Democrats will almost certainly recapture the chancellorship in

This expectation has greatly increased the interest in who will emerge as the Christian Demo-crats' candidate for chancellor. Inevitably, Mr. Strauss, 59, is among those whose names figure most prominently in the specula-

Top Survivor .

As a former defense minister and finance minister, he is the top-ranking survivor from the 20-year period before 1969 when the Christian Democrats controlled the Bonn government, What is more, he has effectively slienced the charge that this makes him a museum piece whose ideas are not in step with the Christian Democrats' search for an up-to-date image.

In last month's Bayarian state elections, the Christian Social Union, a party totally under Mr. Strauss's domination, captured 62 per cent of the vote—the biggest margin in Bavarla's, postwar history, A victory on that scale in the country's secondlargest state made if lucidly clear. that Mr. Strauss is still a potent vote getter.

It also greatly strengthened Mr. Strause's hand within the curious: balance of forces that represent

Germany. West Germany has two Christian -Democratic parties: Mr. Strauss's Christian Social Union, the Christian Democratic Union, which operates in the nine other states.- Although separate, the maintain a joint caucus in the federal parliament, and in national elections they have always united behind a single can-

didate for chancellor. Since the CDU has no chance of winning a parliamentary ma-jority without the support of the Bavarian party, Mr. Strauss has had what amounts to veto power over past choices of a candidate chancellor from the CDU ranks. In terms of his own ambitions however, this situation

has worked against him. As a regional party with its base in a state that is heavily Catholic, rural and conservative, the CSU

stands perceptibly to the right of the CDU, which must appeal to a more broadly based constituency. In addition, there is the fact that Bavaria fits into the German political context in a highly individualistic, larger-thanlife way that is not exactly to the taste of its sister states.

حكة امن الأجل

In the past, these factors have enabled the CDU to head off Mr. Strauss's bids for the nomination for chancellor, on the ground that he would have limited appeal in non-Catholic, urbanized northern half of Germany.

Also counting heavily against him has been the knowledge that his-demagogic red-batting and his nationalistic image as a "Bava-rian Bismarck" stir uneasy memories among West Germany's neighbors in both Western and Eastern Europe.

Then too, Mr. Strauss's setbacks over the years have often been due in no small measure to his own excesses. In 1962, when he was riding high as defense minister, his career came perhously close to self-destruction through the Spiegel affair, with its alle-gations that he had tried to plug security leaks by ordering the illegal arrest of one of the magazine's editors.

Visit to New York Even in more recent years, his efforts to broaden his constituency have been marred by his predilection for over-indulgence in strong Bavarian heer and incidents like the time in 1971 when he allegedly was assaulted and robbed by three prostitutes while on a visit to New York.

This time, however, things ma e different. Mr. Strauss's new allure at the polls seems to indicate quite clearly that many Germans are discouraged by what they perceive as drift, bickering excessive permissiveness in the Social Democratic ranks. They also are very frightened at the idea that, after two decades of almost uninterrupted economic boom, West Germany is headed

for hard times In the climate of uncertainty that has resulted, there is an undoubted appeal in Mr. Strauss's calls for replacing "socialist experiments" with fiscal austerity, for Germany to play a more com-manding role in the affairs of the European Economic Community and for a general return to oldfashioned morality and patrio-

Danish Workers Protest, Demand Premier's Ouster

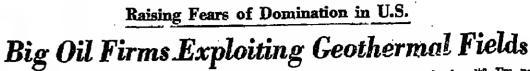

COPENHAGEN, Nov. 26 (UPI). -More than 100,000 workers, many of them unemployed today demonstrated against the government's economic policies and de-

mier Poul Hartling. In the biggest demonstration, police said about 50,000 workers gathered outside the Folketing (parliament) at Christiansborg Castle. In other major cities, workers staged wildcat strikes against what they termed inadequate measures taken by the government to combat rising unem

ployment ensen, a Social Democrat, told the demonstrators ontside parliament that the Liberal minority government of Hartling should resign.

"What little the government has done to save our places of work has proved useless," Mr. Joergensen said.

The number of unionized unem ployed has risen to about 80.000 but trade union leaders said that at least 75,000 nonunion workers

By George Alexander

LOS ANGELES, Nov. 26 .- With little fanfare, but with great purposefulness and skill, the major American oil companies are rapidly coming to dominate U. S. geothermal resources—the underground reservoirs of steam. scalding water and hot rock strata that are often hailed as a potentially eignificant new source of energy for the future. Wherever there is a hint of a

geothermal field, almost invariahly, it appears, the land above has been leased to a major oil flrm.

Almost everyone interviewed for this report accepted the acdisition of geothermal resources by the big oil companies as in-evitable. They all saw both bad and good in this prospect, but in varying proportions.

"Better to have big oil develop

these resources," said a govern-ment official who declined to be identified, than a bunch of small promoters who jump in hoping to make a big, fast buck and then go broke and run out or who admit, very belatedly, they can't meet the [environmental] requirements and leave the public holding the bag.
"So I feel big oil is preferable,

with the proviso"—here, the of-ficial peused and then spoke with emphasis—"with the proviso that we can make an honest pereon of the industry."

His concern, he explained, was not so much that the major oil firms would do anything blatantiy illegal or dishonest in developing geothermal resources, but rather that they would not compete against each other any more vigorously than they have in oil and gas.

That same fear of control exerted by a few producers over a commodity sought by many consumers was expressed by others. The actions of the major oil companies are not likely to put such fears to rest quickly.

Consider the Geysers, since what has been happening and is happening there may be a pattern of what is to come. The Geysers is an area 70

miles north of San Prancisco Last Saturday, Mr. Santos said whose underlying rock layers produce abundant quantities of that talks with Guinea-Bissau representatives on the future of the Cape Verde Islands, off West relatively clean steam, used by Africa, had been concluded with Pacific Gas and Electric, the utility for northern California, to

PG and E, the only U.S. utility to use geothermal energy as part of its overall capacity, buys that steam from the partnership of Union Oil, Magma Power Co. and Thermal Power Co.

The cost of Geysers steam is tied to the cost of oil and gas used the preceding year. As the cost of oil goes up, so automatically does the cost of geothermal

William Gallavan, the manager of PG and E's rate department defended this on the basis of geothermal steam's value to other fuels. "As the cost of some fuels increases," he said, referring to oil and natural gas, "they tend to bring up the value of other types, such as geothermal.
"If we had to use oil in those plants, instead of steam, to generate an equivalent amount of electricity, we should have

pay that much or more." Question Remains

But precisely because the nine plants at the Geysers use steam, not oil, and because there is no other competitive demand for that steam, the question remains: Why does the utility allow the price of one fuel source to be pegged to that of another? The growing number of major oil companies engaged in varying

stages of geothermal exploration and development—all of which are acquiring leaseholds on federal, state and privately owned land throughout the western United States - raises another worrisome question: unitization. Unitization is the practice of several oil companies' consolidat-

ing their holdings in a certain area and designating one firm to It is often depicted as a con-servation measure. "I'm not sure that unitization can be applied to geothermal resources," said a legal expert who

"In the unitization of an oilfield," he said. "you at least have separate development and marketing functions. The different firms may work together to bring up the oil, but then they can transport it elsewhere to sell, even-theoretically, at leastagainst each other.

is studying the matter at the

"But how are you going to market steam separately from where you develop it? I'm not sure that there could be independent marketing of the product in geothermal; it's a different

dimension than oil." Some observers, like Charles Ealdwin, are bothered by what they regard as the oil industry's narrow view of the potential of

geothermal fields. Mr. Baldwin, an energy consultant to the California Senate's Committee on Governmental Organization, is critical of the major companies' obsession with geothermal energy to generate electricity, to the exclusion of other applications.

"There's a long list of other uses," he said. "Home heating and cooling. Freezing produce, Kiln drying of lumber. Drying nuts and prumes. Underground circulation of hot brine, in pipes. to heat soil and accelerate seed germination. And there are a lot

"So when you ask how I view the oil companies' domination of this key energy source, I would have to say it is good from the standpoint of generating electrical power, but bad from the standpoint of the other uses I

just described." The assessment is unchallenged

by oil representatives. Clint Dahlstrom of Standard Oil of California, citing the dif-ficulties of transmitting raw geothermal energy over appreciable distances, said frankly: "We don't see any probability of nonelectrical uses being very significant."

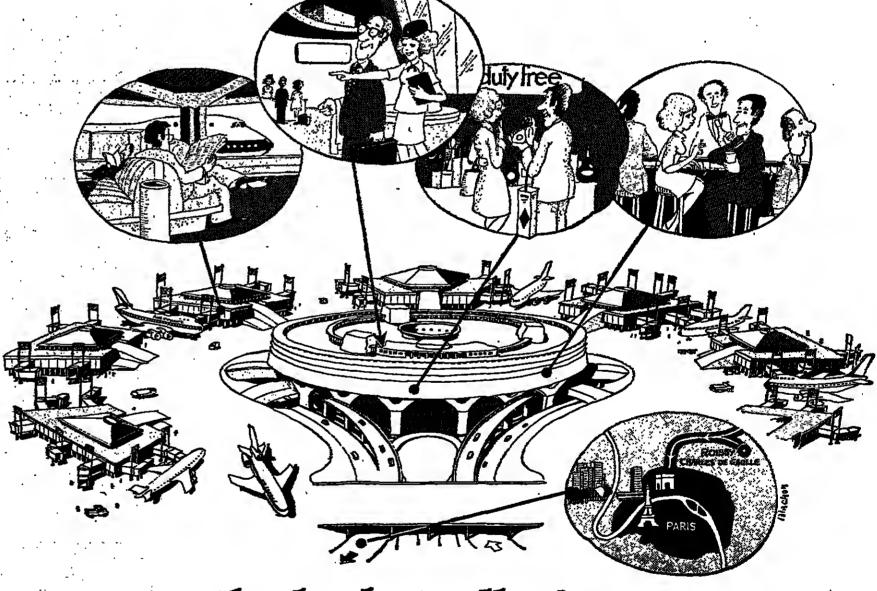

That attitude toward alternate uses of geothermal energy. Mr. Baldwin believes, is largely due to the structure of the oil industry and the well-established ways in which it has done business.

Court Allows Sartre To Talk With Baader

STUTTGART, Nov. 26 (Reuters).—French philosopher Jean-Paul Sartre has been given permission to visit Andreas Baader, alleged co-leader of the Baader-Meinhof group of urban guerrillas, a court spokesman said here today.

The spokesman said a Stuttgart court had given Mr. Sartre per-mission to pay a 30-minute visit to Baader, who is awaiting trial charges which include mur-

Charles de Gaulle airport. Paris'newest attraction. Enjoy it.

As of November 1st most Air France Paris flights land at Charles de Gaulle. So much the better for you. Because it'd be worth visiting even if it weren't an airport.

But its striking architecture wasn't designed for looks alone. It encompasses a great many innovations for your comfort and convenience.

Spacious boarding and arrival areas arranged like satellites around the main terminal; moving carpets to whisk you effortlessly from place to place; shorter waiting time between check-in and boarding.

Charles de Gaulle is not only close to Paris. but you arrive at the Terminal Porte Maillot near the major business and tourist areas of the right bank.

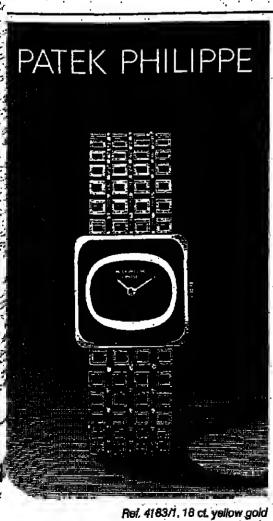

And right across the street from the new Méridien. our four-star hotel with 1023 de luxe rooms.

And since it's Air France's new home base, we didn't spare any effort on our installation. Three of the seven satellites are exclusively for Air France passengers. Thus you avoid crowds and confusion. You have the most direct access through customs to taxis and buses. Plus the fastest most convenient transit facilities. With all our personnel trained to handle any kind of travel problem, from writing

a ticket to reserving a hotel room.

Air France to Charles de Gaulle airport. Don't miss it.

Nureyev, Carlson In Tetley's Idiom

By David Stevens

PARIS, Nov. 26 (IHT).-After last year's success with a dance for it by Merce Cunningham, the Paris Opera has once agein made it ielf a temporary capital of contemporary dance with "Tristan," the substantial new work by Glen Tetley that has just bein given its premiere.

In a way, it is hard to see how it could miss, since it united the different yet remarkable qualities of Rudolf Nureyev and Carolyn Carlson: the highly personal idiom of Tetley the American successor to John Cranko as director of the Stutteart Ballet: a new score by Hans Werner Henze, and a title that suggests a new look at a rich theatrical and

But Tetley's approach has nothing to do with a romantic treatment of the "Tristan" story, any more than his choreographic language has to do with romantic ballet. He says he has gone back to the Celtic legend, which he finds more physical and sensual than idealized. This implies a reference to the events that precede the opening of Wagner's opera, for instance,

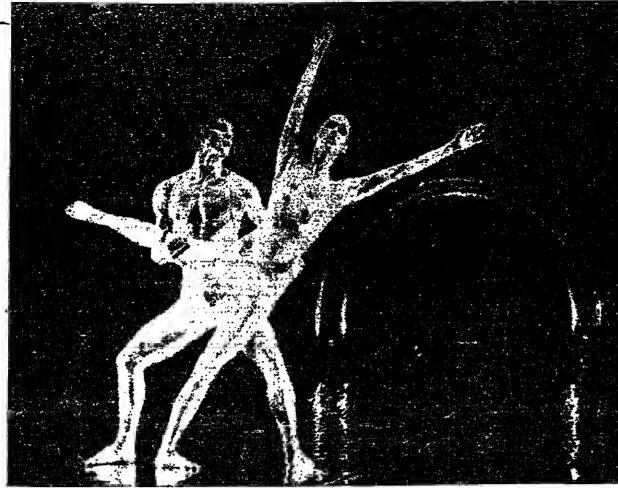

Yet, despite an occasional fleeting allusion to a familiar event, this "Tristan" is not so much narrated as it is commnnicated to the eyes as if by some kind of primeval and barely decipherable ritual. With its slowmotion twisting, bending, struggling movements for the lovers and the savage exuberance of their surrounding world, it is a dance that would seem at home among the ancient stone monuments of Brittany.

Good Match

Much has been made of the contrast between the classically trained Noreyev and the moderndance background of Carlsoo, but Nurevey's controlled animal power and Carlson's flowing, almost plant-like suppleness were beautifully matched and mutually expressive. In any case, Nureyey has danced for Tetley before, and he continues to explore and absorb all the languages of dance as if afraid time will run out before he has done everything.

Fifteen of the younger Opera dancers filled out the cast more than creditably, and one in particular. Jean Guizerix, was spleudid in a wild death-dance of a

Murder, Maniacs in Vadim's Latest

FILMS

By Thomas Quinn Curtiss

PARIS, NOV. 25 (IHT). - LA Jeune Fille Assassinée" (at the Biarritz, the UGC Odeon and the Cinemonde Opéra) is probably what people expect of Roger Vacim, who discovered Brigitte Bardot and she specializes in the erotic.

It deals with a sex murder and is so overrun with sexual maniacs of various sorts that any account of it would read like a combination of psychopathic cases collected by Havelock Ellis. It is crowded with scenes of fornication and nudity, but it is weak on suspense; Vadim's sense of the ridiculous seems to have deserted him. He has failed to supply the black humor necessary to balance such an overheated scenario. The film solemnly moves from grotesque situation to grotesque situation.

A pretty model has been murdered, but the police, unable to solve the crime, have dropped the investigation. An intellectual author, at work on a study of Freud, decides to turn detective. He knew the dead woman and intends to write her story so we are treated to flashbacks of her past. What a tiresoma person she was. She fought with her father, showed incestuous longings for her brother, took drugs, married a homosexual movie critic carried on with a German sadist and the aforementioned author, threw her pearl necklace into the Seine and had a death wish. Almost anyone might want

For his heroine, Vedim has chosen a young novice, Sirpa

of cheap, easy movie melo-

drama... The subject—and Mr. Huie's tough, journalistic novel—

should have been much better

"Murder on the Orient Ex-press," directed by Sidney Lamet, is based on Agatha Christle's

famous novel. Shot in Britain,

France and Turkey, "it has the

kind of all-star cast that only

MGM could have afforded 40

years ago," says Vincent Canby.

Setting the tone for the film is

Albert Finney's extraordinary per-

formance as Hercule Poirot, Aga-

tha Christle's Belgian detective whose smug, unflappable bril-

liance makes Sherlock Holmes

look like a hysterical freak."

Canby finds the film full of the

"sort of wildly theatrical over-

statements that heretofore only

Laurence Olivier, Marlon Brando

and, occasionally, Maggie Smith

have gotten away with." Canby's

only quarrel with the film is a

minor one: "There is too much music on the soundtrack."

is at odds with the rampaging of the insane Charlotte, but her presence softens the harshness of the role and is pleasantly soothing. Vadim, as the inquisitive author, proves a sound and sympathetic actor, while Mathley Carrière as the mad German playboy. Elisabeth Wiener, Michel Duchaussoy and the others suffice in their weird assignments. Pictorially the film has originality and beauty. To give this lurid shocker highbrow tone, the dialogue is sprinkled with literary quotations, including a clumay paraphrase of Hil. Mencken's "The movies are by morons for morons."

French screen comedy has coarsened lately. An example of the current phase is "La Moutarde Me Monte an Nez" (at the Marignan Pathé and many other housest. The Gallic spirit here gives way to imitation Hollywood slapstick. In the film a timid professor and a film star, with whom the teacher has become unwittingly involved, are pursued by an inquiring photographer. Claude Zidi, responsible for the Obarlots movies, directed, giving tha film the common touch, though its popularity is probably due to Pierre Richard as the savant and Jane Birkin as the movie star.

Don Siegel has put The Black Windmill" (at the UGC Odeon in English) through its paces with proper vigor. In the film a schoolboy, the son of a British secret agent, is kidnapped. Excitement and surprises hold attention from start to finish. Michael Caine is the secret agent who is torn between duty to his country and paternal affection. The result is above the routine.

The Library of Congress recently honored Isno Hugo, the celebrated engraver and film-maker, with a showing of eight of his experimental films. This week Hugo came to Paris for a projection of his new film, "Transcending," in which he has worked for the first time with

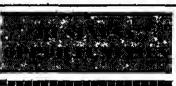

"Transcending" was suggested by Maya Pines's book. "The Brain Changers, Scientists and the New Mind Control," which expounds the theory that everyone is either right-brained or left-brained and that in every individual two different persons exist. Hugo gives graphic dem-onstration of the theory with Yess Hakashima, the Japanese mime, serving as the split-personality figure. The film is due for theater and television release here in January.

Who Is Eating The Pet Food In the U.S.?

By Laurie Johnston

YEW YORK (NYT).—The suggestion for the main dien called for beef chunks cooked with eggs, cheese and assorted vegetables (carrots, green peac. celery, green beens, onlons, a touch of garlie). Or as an alternative, tuna fish with tomatocs, bell peppers, spinach celer; onlons and a garnish of parsley. The diner being tempted? A dog or a cat. The meals? 39-cent can of dog-food, a 23cent can of cat tima

Three hillion pounds of canned pet foods are consumed yearly in the United States by family-owned pet population of about 33 million dogs and 22 million cats and enough strays to bring the estimated total to 90 million. Pet food, ringing up \$2 billion in total sales yearly, !s the nation's biggest grocery item with all types totaling more than 7 billion pounds.

But, as concern spreads about hunger and malantrition as well as poverty and inflation, reports rsist that canned pet food in substantial quantities is being eaten by humans, especially the elderly poor. Another version 15 that one-third of the canned pot food sold in some slum areas is consumed by people.

Fallure

Inquiries by city, state and federal health and welfare of-ficials in the New York metropolitan area as well as grocery chains and the pet food industry itself have failed to substantiate any of the reports. Industry sources said that

figures released in May showed a 10-per-cent decline in cannod pet food sales in the previous three months and 4 per cent in the previous year, after a 65-percent climb since 1968, with div and semi-moist pet foods cach up 9 per cent. They also noted the increasing "onti-crime" ownership of large dogs by the elderly and poor, suggesting a porsible connection with reports ri rising pet food sales in loxincome areas.

The only discernible sales pritern is that there is no discernible pattern," insisted Jay Acc.executive director of the New Jersey Food Council, a grocers' group.

But the report concerning human consumers has had consequences. For example, the manufacturers and their trade association, the Pet Food Institute in Washington, D.C., are busily knocking down the rumors. which dismay and even irritate them with the inevitably resulting question (and potentially higher cost) of human-food standards for pet food ingredients and processing.

The story that many people were eating dog and cat foods first surfaced in June as an undocumented tidbit in a report to a Senate committee hearing on nutrition. In an article, Them Eat Dog Food?" in the current Columbia Journalism Review. Robert J. Samuelson traces the escalation of the story: from a top-of-the-bead estimate (later disayowed) of the "one-third" figure to insertion into the Senate committee report, then into the news and eventually into "a claim that had been repeated so often by so many people that it

was accepted as verified." Most of the people interviewed during the last week considered that it was a scandal if even one individual in "overfed" America was actually relying on pet food. "In six months of trying, we have not come across a real case." said Pat Scott of New York City's Office for the Aging.

The credibility of the rumor may stem partly from the industry's own stress on "palatability" of the better canned pet foods to the human eye and nose, as well as the mest-and-protein image through cultivated adver-tising, which for all products totaled \$80 million in 1973 (80 per cent of it on television and is projected at close to \$100 mil-

"It's all those chefs on TV cut-ting up meat for dog food," said Barbara Primo, a nutritionist with the New York Health Department. "It's not hard to imagine some response from people who are craving some kind of mest or protein and don't know cheap alternatives." (Ironically despite the "menty goodness" pitch for the canned foods virtually all animal nutritionists agree that the dry or semi-mois: foods give pets "more nutrition for less money.")

CHANGES IN THE BANKING SECTOR IN LEBANON

Pierre Nasrallah, Secretary-General of the Association of Banks in Lebanon.

In the recent evolution in the Lebonese bonking system, changes have taken place at three levels: that of legislation, the structure of the institutional apparatus, and in banking activity itself.

I—LEGISLATIVE CHANGES

The Money and Credit Code, which is the basis of the law where banking is concerned, goes back to 1963. It was altered by new regulations in 1967 subsequent to the crash of the Intra Bank and the June war. At that time, following the serious events which had worldwide consequences, notably in the region of the Middle East, the legislator was meeting the requirements of the banking sector and the economy in general. In October, 1972, by amend-ing once again the Money and Credit Code, the legislator was simply operating logically. He was far from reacting to events; he just felt the need of adapting the texts of the law to the rapid transformations taking place in transactions in modern economies. He took particular care to ease the relations between the Central Bank and the commercial banks, to give a wider margin of action to the Central Bank, and to reinforce the powers of the banking Control Com-

a) Relations between the Central Bank and commercial banks have been eased in more than one respect. By extending the maturity decidines (from 90 to 180 days) for bonds admitted for rediscount; by admitting for rediscount alongside the traditional private bonds, public bonds issued or guaranteed by the state; lastly, in certain conditions, by public or private bonds, if need be, through the intermedicity of the Beirut stock market. The discount and buying and selling opera-tions for the said bands are also possible when they are made out in foreign currencies. Finally the Central Bank can, in the light of the general monetory situation, accept interest producing deposits from the banks and can

consider if it judges it op-portune that the banks investment in public bonds, or bonds issued with the quarantee of the state, form part of the computsory reserve. This is indeed not on exhaustive list, as the amendments made cover many other points.

b) The Central Bank's

حكذا من الأمهل

margin of action becomes wider. It is possible for it to fix and modify, whenever it considers it necesscry, the standards of managemen, that the banks should observe in order to preserve a state of liquidity and solvabil-ity. Its action on credit control is broadened and so longer limited to advances against securities and consumer loans. Lastly, its action is no longer limited simply to the banking sector globally, but also to firms on an individual basis. Its action is henceforth more differentiated in that, for each bank taken individually, it can determine the proportions which should exist between assets and liabilities.

c) The strengthening of the Bank's Control Commission powers. Its pow-ers exceed the banking crea proper and extend to financial establishments. Furthermore, the acquisi-tion of real estate by the Banks in recovery of doubtful receivables is subject to its prior permission; it is also up to the Control Commission to evaluate the bank's assets and eventual losses. Lastly they have powers of evaluation in respect to the granting of loans to members of Boards of Directors according to the rules laid down by the law.

II—THE MODIFICATION OF THE INSTITUTION-AL APPARATUS

a) First special legislation enabled the creation of a medium and long-term investment and commercial bank, Banque Nationale pour le Développement Industriel et Touristique, with capital of L.L. 60 million, 51% being supplied by the State and 49% by the commercial banks.

b) Secondly, it is neces-sary to indicate the creation of a new type of bank-ing establishment specialized in medium and longterm loans. The law which governs the formation of these establishments goes back to April 21st, 1967. It was not, however, applied before 1972 with the formotion of the following banks with a capital of LL15 mil-

-Banque d'Investissement et de Financement-INFI (formed by the Bank Audi SAL, the Coisse Centrale des Banques Popuknires, the Renault group, Hambros Bank, the Mitsu Bank and Nomura Securities, in addition to the participation of private Arab investors.

-Banque de Finance-ment (capital LL17 million). Initially this was a commercial bank controlled by Intra Investment Co., which has been transformed into on investment bank.

Kredietbank of Luxembourg, Daiwa Securities
Co. Limited, the Scottish
Eastern Investment Bank
Limited, Smith Barney International, Scottish Onta-

—Banque du Proche-Orient SAL Byhlos Arab Financing SAL and Interfinance bank. These three organizations are still in the process of for-

c) One notes, as well the introduction to Beirut of new commercial hanks with international networks subsequent to their purchase of Lebanese Banks in activity. The following names can be noted in particular: -Crédit Suisse bas

bought the Kairouz Bank —Chemical Bank has bought the Rabiya Bank

Commerce International has bought the Banque Chartouni SAL

Méditerranée SAL. -Crédit Commercial de France has bought the

Bank has bought the Banque des Cèdres SAL —The Morgan Guaranty

(Poland) has bought the Commercial Business

ership by the First National City Bank.

-Union Book, formed in 1974, with the participation of the Gefinor Group, the BCAIF, the Sumitomo Bcnk, rio Investment, and the Securities Trust of Scatland, together with Ma-dame Nadia El Khoury.

—The Bank of Credit and

-The Fidelity Bank has bought the Banque de la

Banque Libanaise des Emigrés SAL. -The Toronto Dominion

Trust Company has pur-chased 40% of the Bank Al-Mashrek. —The Hanlowy Bank

Book SAL. —A group of Kuwciti financiers controls the Liberal Bank, with part own-

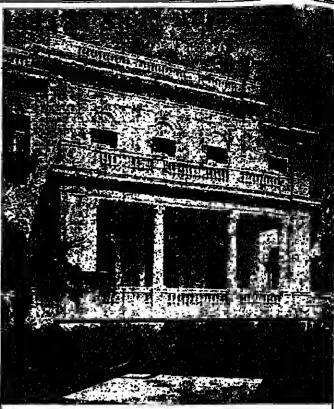

Aport from these purchases, other transformations have taken place in the banking sector two new commercial banks have seen the light of day (The Banque Commerciale Syro-Libonoise and the Lebanese Arab Bank) and the Société Tunisienne de Banque has become the Arch Libyon Tunisian Bank, through a contribution of Libyan capital.

d) The particularly massive influx of foreign banks representative offices into the Beirut market is the final element that can be noted in the modification of the structure of the institutional apparatus. The number of these offices was limited to 28 in 1970; teday it officially attains 47 establishments. Other applications for admission cre, however, in process and it may be assumed that the number will reach nearly 55 before the end of 1974. All the flags of international finance are represented there.

II—THE NEW ORIENTA-TION OF BANKING ACTIVITY

There is on obvious change in the structure of the assets in the balance sheet of the banks. Loans to the economy are taking the lead over outside investments. Traditionally these two types of investment accounted for a similar share in banking assets; this share stood around 45% of the total for each sector and has stayed roughly at the same level since 1970. Things changed in 1973, with outside investments falling to 40%, loans to the economy rising to 51%. It is true that these percentages are those for the month of December, but the average for the year should not be considerably different.

The consequence here is important to emphasize. Banking finance in Lebanon, because it depended for at least half of its activity on outside reinvestments, was considered to be structurally onti-infla tionist; but with a reversal in proportions, a new factor appeared. The greater part of financing is now devoted to internal credits with its direct implications on global demand. From now on, a more effective monetary policy is required, and the monetary authorities will have a delicate part to play in this

Banque Audi moves into new premises for a better handling of your Business in the Middle East.

with more than a hundred years of the new INFI investment banking raditions in Lebanon, Banqoo hold, which was incorporated as 16t2, has expanded today not one of the leading banks as the Micdle East, combining is least experience with growing recional and international experies.

Toyo Kogyo cited higher labor

Last week. Toyo Kogyo an-nounced that it planned to begin settling raw material and parts purchases with promissory notes rather than cash, effective De-

This suggests, he said, "a greater need for recycling (of

petrodollars) through official channels in 1975." Mr. Witteveen, whose remarks were made public by the IMP, said that while there is now "broad agreement" that govern-ments, central banks and international organizations will have n next year he said.

Witteveen told the United to do more next year in recycling petrodollars, there are still "many uncertainties" about how this is

to be accomplished. The IMF, he suggested, will have to expand its "oil-facility" lending operations, borrowing more from the oil-exporting nations and possibly from a few industrial nations with strong payments positions, to provide loans to other countries.

Because some of the weaker developing countries need loans "on highly-concessional" terms, he said, the IMF is considering ways in which an "interest sub-sidy" might be arranged for such

In his first public comments on recent U.S. proposals for new international financing arrange-ments, Mr. Witteveen mentioned that the United States has outlined another approach to con-cessional financing for develop-ing countries through an IMFmanaged trust fund.

Such a fund, he noted would receive contributions from the oil-producing countries and others, and would offer credits at rela-

tively low cost.

Mr. Witteveen said be was sure that this "suggestion" would be considered on an urgent basis along with other proposals by the ministers and the joint IMFm January.

The IMF official said many details" have to be worked out on other proposals, such as the U.S. plan calling for a \$35-billion fund outside the IMF, for loans to industrial countries, with the financing to be pledged by the United States, Japan and Western European countries.

transportation."

out five or six models a day.

Earlier, Toyo Kogyo asked its labor union to accept payment of annual year-end yen bonuses installments spread over three

months rether than in one lump

The company has been secur-ing cash for its Japanese operations by exporting autos to other countries where most have gone into inventory. The inventories are financed locally with the Japanese parent collecting cash as though the exports had been actual sales. This is a practice used in varying degrees by nearly all Japanese companies.

Toyo Kogyo's overseas inven-tories, especially in the United States, where stocks are estimated to be equivalent to 18 months sales, are so large as to be a source of some concern

Bayer's Profit Rises

LEVERKUSEN, W. Germany, Nov. 26 (AP-DJ).—Bayer group's net profit in the nine months rose 28.1 per cent to 511 million marks on a turnover increase of 313 per cent, Herbert Gruenwald, management board chairman, reported today.

Mr. Gruenwald predicted increased profit for 1974 resulting from an outstanding first half but tempered by a cooler second half, Bayer earned 566 million marks in 1973.

World turnover for the full year is expected to rise to 18.5 billion marks from 14.7 billion.

Dollar, Pound Soften Again

LONDON, Nov. 26 (AP-DJ).— The dollar and sterling continued to weaken against Continental European currencies today amid indications that some of the oilproducing states were again di-versifying their dollar holdings into marks and Swiss francs. The dollar fell to about 2,4535 marks from 246, and fell more sharply against the Swiss franc,

dropping to 2,6663 from 2,6925, A dealer said it seemed likely that the oil-producing states were buying both marks and Swiss francs whenever those correncies weakened slightly. There seem to be some very large orders overnging the market," he com-

The dollar also fell just about 2 centimes against the French franc to 4.5438, a new low for the year, and weakened against the

we are moving into a recession."
Until that statement, officials

had been using such terms as "spasm" and "stagilation" to de-

Yesterday, Treasury Secretary

scribe the U.S. economy.

recession.

WASHINGTON, Nov. 26 (IHT). On Nov. 12, after avoiding the term for weeks, President Ford's economic advisers conceded that the United States is indeed in a recession. Now, one of them says it may be the longest recession since the end of World War II.

The economic expert concerned is William Simon, the secretary of the Treasury, who acknowl-edged that the country is in a

Simm told the Associated Press in an interview that the slump "might be longer than any of the recessions since World War II, but it's way too early to tell whether it will be more severe." The longest of the five postwar recessions lasted for 13 months, from July 1953 to August 1954. The last recession, went from November 1969 to November 1970.

Mr. Simon said the U.S. memployment rate-new 6 per cent of the labor force-will hit 7 per cent by late spring, and indicated he would not be surprised if it went higher. The nation's worst unemploy-

ment in the postwar period was 7.9 per cent during the recession

Big U.S. Retailer Said to Ask

recession on Nov. 6. The following day, a White House spokes-man said the situation "doesn't fit the classic definition of a

It was not until Nov. 12 that level off. White House Press Secretary "We still forecast that by the Ronald Nessen stated that "when the statistics for November come in, it will appear that this month

whether it will plunge below 3.9 per cent, which was the record postwar economic decline in the cession of 1952 and 1954.

He said the economy, which has been declining all year, will continue to decline through the first quarter of 1975, and then

summer of 1975 there will be an upturn," he said.

Ho said it is "too early to tell"

Coal Strike Concern Cuts Back N.Y. Rally

NEW YORK, Nov. 26 (IHT).— Prices closed mostly higher on the New York Stock Exchange today but a late rally gave way to concern about the continuing U.S. coal strike.

The Dow Jones industrial aver-age closed with a gain of 5.32 points to 617.26. It was ahead 9.15 points at 3 o'clock.

Advancing issues moderately outran decliners about 795 to 545. Volume totaled 13.68 million shares compared with 11.3 million resterdar.

Analysis attributed the gain in part to rejection by the House of Representatives Appropriations Committee of most of President Ford's recommendations for cutbacks in appropriations in the year ending June 30.

Merkin & Co.'s analyst Charles Jensen said that anticipation of a coal pact approval by the miners' bargaining council helped buoy the market in the second half of the session and noted the pullback followed announcement that the council adjourned from an afternoon meeting without voting on a modified proposed contract,

The most active issues on the Big Board were lower. Among them, Genumo Parts fell 3/4 to 24 1/8, International Telephone & Telegraph was 15, off 1/2, and General Electric 35 1/8, down 1/4. Oil service industry stocks were strong. J. Ray McDermott climbwas 106 3/4, up 1, Halliburton 137 1/2, up 3/4, Vetco 31 1/4, up 1 3/4, Reading & Bates 18 3/4, np 2. Santa Fe International 23 7/8, ahead 3/8, and Zapata 25, np

Page 11

In department store issues, Pederated Department Stores tacked on 1/8 to 25 7/8, Marcor was 15 7/8, down 5/8, J.C. Penney 38 1/8, ahead 5/8, and Sears, Roebuck jumped 1 7/8 to 45 7/8 after a loss of 1 7/8 yesterday. The loss followed Sears' report of lower October quarter net.

The American Stock Exchange index closed down 1 to 62.31. Most active was Imperial Oil class A, which closed down 1 3/4 to 19 2/4 on volume of 121.800 shares. Analysts have noted pressure on Canadian oil company shares since Ottawa announced proposals last week that would increase taxes on natural resource industries and curb oil exports to the United States. On the over-the-counter mar-

ket, the NASDAQ industrial average rose 0.69 to close at 60.02. In Chicago, farm commodity futures rose to limits on tho Board of Trade in the last few

The announcement of a U.S. trade surplus tended to dispell any thoughts of government controls on farm foods, feeds and material which had a small, bearish effect on trading in recent

According to U.S. Panel's Report

Sugar Price Rise Benefits All in Industry

By Eileen Shanahan WASHINGTON, Nov. 26 (NYT). -A government staff study made public yesterday concluded that "all sectors of the U.S. sugar in-dustry" have realized "very large windfall gains" from the recent big increases in augar prices.

The study, released as the new Council on Wage and Price Stability, headed by economist Albert Rees, opened two days of hearings on the sugar situation. It did not attempt to fix any biame for the sharp rise in sugar prices.

Its author, Bruce Walter, of the council's staff, merely analyzed what had happened in various sectors of the sugar industry and concluded that all of them including the growers of sugar beets and cane, had shared in the "much higher" profitability of

Other witnesses at the hearing included producers and refiners of sugar and both individual and commercial consumers.

Among the less familiar assertions and arguments that they made were the following: · Carol Tucker Foreman ex-

ecutive director of the Consumer Federation of America, said that a "gross mistako" by the Agricul-ture Department in January which publicly predicted a one-

British Sugar Price Drops As 'Stalemate' Continues

LONDON, Nov. 26 (AP-DJ).—The London daily price for raw sugar dropped a further £25 a long ton to £585 today due to lack of outside influences, dealers said.

The decline followed yesterday's fall of £30 to £610 and contrasted with a record £650 set last Thusday.

December delivery every however these to a middling £536

December delivery sugar, however, rose to a middling £535 from £517.50 on technical reaction to the sharp downtrend. Other terminal market positions remained limit down, seller. December is the present spot month, which is not subject to permissible limit price movements under market rules.

C. Czarnikow Ltd., the sugar brokers, said the market is

currently in a "stalemate," with potential buyers reluctant to make any offers in the absence of price indications provided by international buying or selling tenders.

Suppliers to Sell Its Orders By Isadore Barmash NEW YORK, Nov. 26 (NYT).- considerably smaller than those now being offered. In reporting a 38.5-per-cent decline in profits on an 8-percent sales gain in the third quar-

Sears, Roebuck & Co., concerned by inventories substantially higher than they were last year, has asked a number of its prime suppliers to try to sell to other retailers large quantities of goods it had ordered. In other cases, Sears has asked suppliers to delay delivery until further notice.

William Simon

Sears, the country's largest retailer with estimated sales this year of \$12.4 billion, reported yesterday that its inventories in the third quarter ended Oct. 31 were up 18.8 per cent from the

In Chicago, a company spokesman denird any knowledge of the Sears effort to divert shipment of goods it had ordered

However, it was learned that Sears's suppliers have asked three major retail chains in the New York area if they wanted to accept, at reduced prices, goods ordered by Sears.

A \$6-million inventory of fcotwear, for example, was offered for about \$4 million, but the offer was not accepted. In addition, large quantities of apparel, underwear, aleeping bags, bedspreads, linens and towels were offered and in most cases accepted be-

Unusual Action Retailing executives termed the Sears-move highly unusual for a company regarded highly for its management skills and judg-

Sears, like most other large re-tail chains, has curbed its inventory in line with a more modest sales expectation Several suppliers, in discussing the matter with other retailers. indicated concern over the situation since either delaying or diverting goods on order to Sears has burdened them financially.

In the past, sources said, some Sears merchandise has been offered to other companies but the quantities are said to have been

ter, Arthur Wood, Sears's chairman, said yesterday that in-ventories at the end of the third quarter were about 17 per cent above last year's level. But he said that the company expects

year-end inventories to be in line with "anticipated 1975 spring season sales."

U.S. House Panel Blocks Bill To End Fixed Brokers' Rates

WASHINGTON, Nov. 28 (Reuters).—The House Rules Com-mittee today blocked, and probably killed, legislation which would end fixed brokerage commission rates by May 1, 1975. The action follows strong op-

New Laws Seen For Oil Firms

WASHINGTON, Nov. 25 (Reuters).-Federal officials said today Congress will have to approve legislation to regulate international oil companies to fully comply with the new international energy program to share oil in case of embargoes. Interior Secretary Rogers Mor-ton and Federal Energy Admin-

istrator John Sawhill did not give details of the proposed legis-lation, but Mr. Sawhill said there would have to be legislation. Danish Prices Rise

COPENHAGEN, Nov. 26 (Reu ters).-Denmark's consumer price index rose to 215.9 (base 1964) in October from 213:1 in September and 184.8 in October 1973, the

position to the bill from the New York Stock Exchange and the Securities Industries Association, There was also pressure from members to adjourn as soon as possible next month and not get involved in potentially controver-

The vote of the committee was eight to six against sending the bill to the full House. It had been approved by the House Commerce Committee in October with only a single objection

stal bills this late in the session

There are other procedures for bringing the bill to the floor, out it would be difficult to do so with so little time left in this session, A similar bill has been passed

by the Senate, but both measures will die at the end of this session and will have to be reintroduced nest year.

Rules Committee members said they had been contacted in the past week by representatives of the NYSE and the Securities Association urging them not to approve the bill. The chief objection was to the elimination of fixed commission rates, which would cause financial damage to the brokerage industry, according to the opponents of the bill.

million-ton increase in U.S. sugar

consumption this year, helped create the rise in sugar prices. · Ellen Hass, of the National Consumers League, suggested that the council, which has no power to order any price cuts, determino what a fair price for sugar would be and publish this figure as a "guideline" for the industry and ers of sugar saw this as the whole

Similar guidelino prices should be published for other products produced by industries that are dominated by a small number of companies as the sugar industry is, she said.

• William Quinlan general counsel of the Associated Retail Bakers of America, said that many of the nation's 20,000 bakeries, most of them small, neighborhood businesses. were threatened with bankruptcy because of higher prices of sugar, shortening, eggs and other ingredients.

He asked for an emergency subsidy by the government to bring down sugar prices to con-sumers. Among the countries that have such a subsidy now, he said, are Canada, France, West Ger-many and Britain.

· Elinor Guggenheimer, who is the commissioner of New York City's department of consumer affairs, proposed that Congress repeal the tariff on sugar, which is \$.625 cent a pound on raw sugar. "There is no longer any need to protect our domestic industry from import competition and such tariffs only add to our already incredibly high prices,"

Among the many, sometimes conflicting, reasons given by various witnesses for the nearquadrupling or sugar prices in the past year, there was one es-sentially undisputed reason: The world demand for sugar has risen. faster than world production. In general, producers and refin-

reason for the price increase, whereas representatives of both commercial and household users of sugar felt that the underlying supply and demand picture was only part of the cause. Other causes suggested by one

or more witnesses included the following: Speculation in sugar futures.

which is less regulated than it might have been if the Nixon administration had not opposed legislation imposing more regula-

 Speculative purchases of sugar by Arab nations that are using the profits from oil to make additional money in sugar.

 Congressional refusal to extend the Sugar Act that, for decades, put a floor under the prices charged for sugar in the United States by limiting the amount of sugar that could be imported.

· Profiteering by sugar producers, especially those who refine sugar from sugar beets, rather than cane. The refining process for beets is simpler than for cane, several witnesses pointed out, and the cost of raising sugar beets has not risen the way the world price for raw cane sugar has.

Japanese Firms' Profits Seen on Decline

its of major Japanese cons will decline an average 1.8 cent during the six months ng March 31, 1975, on insed sales of 7.1 per cent, comd with the preceding half-period, Nihon Keizai Shiman economic newspaper, said

le paper also predicted that ating profit of the concerns show a 7,3-per-cent decline ng the current half-year

· pan Plant Exports ! Record in Month

DKYO, Nov. 26 (AP-DJ).contracted value of Japanese Etrial plant exports totaled cord \$443.6 million in Septemup 83.6 per cent from a year er, the Japan Machinery orters' Association said to-

le September export conts totaled 47 projects, up from projects a year earlier, the Cation added. ficials said inflationary ef

5 and some big-value conis boosted the monetary total

the contracts to the record 20 October contracts included lictizing plant, valued at \$123 ion, to Brazil, and an X-ray manufacturing plant, valued \$52 million, to the Soviet on, officials said. period from the last half-year by the start of the oil crisis last

Nihon Keizai said the expected declines both in net and operating profits would constitute the the first time this has occurred since a recession in 1965. The paper blamed a sharp in-

crease in fixed costs stemming

from production cutbacks as a result of lower demand for the projected poor profitability. The textile, electric equipment and shipbuilding industries are expected to suffer most seriously

from the current recession, it Major steelmakers and fertilizer producers are expected to report higher profits during the halfyear period, the paper said. The full impact of a domestic price increase, which has been effective since last June, and brisk exports would contribute to the projected higher profit of steelmakers, it

predicted. Oil refining and electric power companies also are forecast to recover from the damage caused

price and rate increases for tho projected good earnings reports of both oil refiners and power firms for the next half.

Foreigners Sell Japanese Stocks

TOKYO, Nov. 26 (AP-DJ).— Foreign investors sold a not \$72 million of Japanese stocks during October on the open market, the Financa Ministry said today. Foreign investors have been net sellers of Japanese equities since September, 1973.

million in stock. However, foreign investors were net purchasers of Japanese bonds and beneficiary certificates during October, officials said buying \$29.8 million of bonds and benefictary certificates during the

month, while selling \$9.7 million.

FIRST INVESTORS INTERNATIONAL MINING AND PETROLEUM FUND S.A. SOCIETE ANONYME

Registered Office: Luxembourg, 37 Rue Notre-Dame R.C. LUXEMBOURG B 8426 Notice is hereby given to shareholders that the final liquidation meeting of the company will be held at 3 p.m. on the 16th December, 1974, at 37 Ruo Notre-Dame, Luxembourg, with the

(In voluntary liquidation)

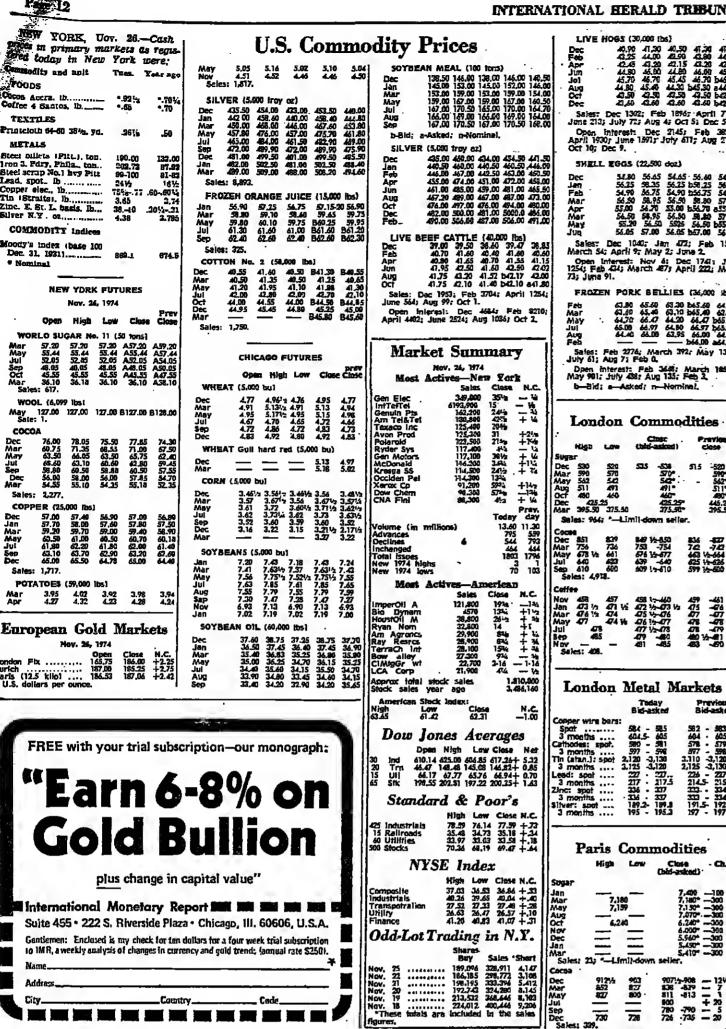

AGENDA 1. Receipt of the report of the auditors to the liquidation and

of the liquidation accounts; Approval of the liquidation report; Discharge to the directors and the auditors for the period ending October 28, 1974;
Discharge to the liquidators and the auditors to the Equi-

Holders of bearer shares may vote at the meeting in person by producing at the meeting either their share certificates or a certificate of deposit which will be issued to them against deposit of their share certificates with Krediethank S.A. Luxembourgeoise or with Hambros Bank Ltd., 41, Bishopsgate, London EC2P 2AA. Holders of bearer shares may vote at the meeting by proxy by completing the form of proxy which will be made available to them against deposit of their share certificates or receipts

There is no quorum requirement for this general meeting and the resolutions to be passed will require the concurrence of a simple majority of the total number of shares represented at the meeting.

G. KIOES and E. LECUIT, The Liquidators.

New York leads every other state in international trade. We're the bank that knows New York State.

United States' foreign trade moves through New York State's three customs districts; the Port of New York, and Buffalo and Ogdensburg on the St. Lawrence Seaway.

Marine Midland Bank, the bank that knows New York, has been a part of New York's importance as an international marketplace since 1839. Today, we can help you become part of retailers. Because we know

more than 300 offices. More banking locations than any other bank in the state. In fact. with resources exceeding \$13 billion, Marine Midland is the twelfth largest banking system in the nation.

So, we can put you in touch with suppliers, manufacturers, distributors, them. And our knowledge can be yours.

That invaluable knowledge, plus our years of experience and our senior officers' desire to get involved, is fully expressed in our international banking capabilities.

Marine Midland Bank. Big bank resources. Personal service. All over New York State.

BOOKS

ALDOUS HUXLEY: A BIOGRAPHY

By Sybille Bedford. Knopf/Harper and Row. 769 pp. \$15.

Reviewed by Stephen Spender

MOST artists are more interesting in their works than in their lives. With Aldous Huxley, however, one feels that the man somehow adds up to more than the sum of the writings; or perhaps that the writings can only be seen as a whole in the bril-liant light of the character of the man. There are good reasons, I think, for feeling this. One is that Aldous (as Sybille Bedford sensibly calls him throughout her book) showed exemplary, almost incredible, courage in overcoming adverse circumstances. For this very reason his activities and writings are bound np with his efforts to overcome difficulties. In spite of—that is to say, perhaps because of—the near-blindness with which he was afflicted at a very early age, be was super-latively well read, and acquired encyclopedic knowledge. In spite of—perhaps because of—his feeling cut off from other people, he struggled constantly to under-stand them, to improve himself so that he could give more and be closer to other human beings. In spite of—perhaps because of his having by nature an out-

sider's satiric temperament, he learned to make love the aim and center of his life. Thus to

read his biography is to learn a good deal aboot the art of living

and, at the end of dying.

Miss Bedford's book is in no sense hagiography. However, saintliness was an extreme spiritual condition that interested Aldous, as was also its opposite, diabolism. He discussed both in "Grey Eminence" and "The Devils of Loodun," Meeting him when he was alive, and reading about him in this book, I feel that he sometimes himself, especially toward the end, attained a state of spiritual detachment

which was close to saintliness.
Sybille Bedford describes Aldous as completely unneurotic. This seems an oversimplification. It is more probable that the family depressive neurosis, like his near blindness, was a challenge that he overcame with his heroic mixture of courage, intelligence and a sort of gaiety intensified to a spiritual radiance. If Aldous had—as many people thought—an aura of goodness, the light he shed was happiness. He was not self-righteous, nor a prig.

It was with the publication of "Point Counter Point" in 1929 and "Eyeless in Gaza" (1936) that a diary-writing autobiographical character began to emerge at the center of his work who is making tremendous efforts to understand the "extraordinariness" of life and present it in his fiction, and is at the same time in search of a philosophy.

Sybille Bedford has a grasp of

the complexity of Aldous's life and works that gains strength as her biography proceeds. She does more than tell us a great deal about his activities, his friendships, his marriage, his books, his

Solution to Previous Puzzle

travels, etc. She makes us fee that we really know him and his wife Maria (who with her letter and diaries provides an unceas ing commentary on their ma-riage), that we are there. From first to last, Aldous is intensely active, inquiring, traveling, gathering in information with both

hands. In spite of this, though he undergoes a great change.

To define the change is rather difficult. Perhaps it is best to say that he went deeper into his thoughts and sensibility in order to become more selfless. His philosophy began in the thirtie with his pacifism, which was based on a conviction that was is always evil because the meth ods of destruction and propagands it employs inevitably sub vert the ends, bowever good or well-meaning.

He was baunted by the vision of two possible futures. One, the most likely, was of destruction war and ever-increasing tyrant; in an overpopulated world. The other was that of the "pragmatic dream" that be advanced in his last essay-oovel. "Island": Psychologists must be given power to disqualify certain types of people from ever getting into positions of power. The economic system must be cured of overproduction and the world of overpopulation Scientists, psychologists, educators who have mustered techniques which could bring life closer to the "pragmatic dream" should be given every opportunity to do so. This is the Huxleyan Utopia of a happiness brought about by scientific techniques. It is the opposite of bis somber vision of a world made miserable by its abuse of these techniques in the hands of power maniers Sybille Bedford's great achieve-

ment is that she steadily keeps Aldous's spiritual development at the center of her book, while at the same time relating it to his very scattered activities and relationships: his marriage with Maria, his role as a father to his son Matthew, his relationship with other members of the Hur-ley family, his friendship with the delightful guru Gerald Heart Then there are his travels. :-Mexico, India, France, Italy, and all over America, There are his and Maria's endless changes of residence. There are all his comunications with psychoanalysts. doctors, sociologists, scientiste and last but not least, cranks. There is all the lecturing, teaching and visiting campuses that took in so much of the last years of relife after his second marriage to Laura Archera.

The deaths from cancer, first of Maria and later of Aldous, are agonizingly well documented, as is the destruction of his house in California by fire two years orfore he died in 1963. The end of the book is curiously sad, as though after all Aldons was defeated by loneliness, illness, hlindness and a shrugging descair at the state of the world. A great deal of his life does indeed seem to have been spent in vain protest against the human folly of the catastrophic public events of this century. But perhaps we are approaching a stage in our civiliza-tion when politics as we have known them will be bankrupt. And then, if it is not too late. men may reconsider the "prasmatic dream."

Stephen Spender is the author most recently, of "Lore-Hate Relations: English and American Sensibilities". This review has been abridged. @ The Washington Post.

Big 10 Bowl-Procedure Changes Are Urged

By Gordon S. White Jr. NEW YORK, Nov. 26 (NYT) .-NEW YORK, Nov. 26 (NYT).— Even coach Woody Hayes of Ohio State, whose team has been sent to the Rose Bowl for three straight years by a vote of the Big 10 athletic directors, joined others yesterday in urging the conference to change the pro-ecture for selecting its entry to the Rose Bowl game. "The selection now has become more important than the game."

more important than the game," Hayes said. "We're going to have to change this thing. It's not

Ohio State beat Michigan, 12-10, Saturday, creating a tie between the Buckeyes and Wolverines for the Big 10 championship. The two teams also finished in a tie for the league title a year ago after playing a 10-10 deadlock in their season finals. The year bofore that, Ohio State won the title outright. In each case, the Big 10 athletic directors voted a day after the game to send Ohio State to the Rose Bowl. For the ties, the vote did not satisfy Michigan people a year ago and it did not satisfy them this sea-

Hayes suggested that the Rig 10 use the Pacific-8 Conference method of selecting a Rose Bowl team. Such a plan will be con-sidered by the Big 10 Conference nembers at their league meeting

The Pac-8 which had its own problems years ago when it voted for the team to play in the Rose Bowl, has rules now that settle tie situations. If two Pac-8 teams tie for the league football champlonship, the team that won the game between the co-champions would go to the Rose Bowl. If Pac-8 co-champions played a tie with each other, the team that appeared least recently in the Rose Bowl would get the bowl

If these Pac-8 rules were in use by the Big 10 for the last two

For College Football Power, It Was the Year of the Upset

By Paul Attner

WASHINGTON, Nov. 28. (WP). - presence search and in the bowl games.

Those postseason bowl games, and in the bowl games.

Some persons have guessed that the nower shift (Piesta Bowl), Mississippi State (Onio State, four favoring Michiert State, f the nation's second-echelon college football teams.

The super teams Alabama Michigan, Ohio State, USC, Notre Dame, Pann State-egain enjoyed their customary outstanding records and high rankings. But this Year of the Upset enabled a host of new teams to make their

WASHINGTON, Nov. 26. (WP). - presence felt both in the ratings - Canham, his superior.

Oklahoma State (Flesta) · are making either their initial bowl appearances or their first since the 1950s. Maryland (Liberty) will be playing in only its second bowl game in 19 years. Likewise, the top 20 ratings went

through almost weekly revisions as the former weaklings of col-lege football registered frequent surprises: Navy beating Penn State, Michigan State beating Ohio State, Wisconsin beating Nebraska, Arkansas beating USC, Purdue beating Notre Dame, Baylor beating Texas.

It is likely that the power shifts will continue. The 30-scholarship limit and the freshman eligibility rule are doing much to equalize teams. Many coaches have predicted that even the domination of the super powers eventually could end.

The bowls also were a major part of a Year of Controversy. Bowl executives began picking teams early in November and wound up with such chunkers as Florida against Nebraska in the Sugar Bowl and Penn State against the Southwest Conference champion in the Cotton Bowl.

The decision by UPI not to rank Oklahoma aroused Sooner fans and created the possibility of having as many as three dif-ferent national champions: UPTs AP's and Oklahoma, which could finish the year as the nation's only undefeated team.

The Big 10 again had problems deciding which team to send to the Rose Bowl. Ohio State, which best co-champion Michigan Saturday, got the nod from the league's athletic directors and the Wolverines, despite a 30-2-1 record of the last three years, have to stay home again.

Notre Dame has managed a 9-1 record, with a game against USC Saturday left in the regular season, despite many injuries and a weaker - than - normal team. Torse slipped missing out on a Cotton Bowl berth for the first time in seven seasons. Penn State remained the best in the East but was not the feared team of past

Pro-type quarterbacks were scarce as more teams switched to the veer (option) offense, which requires a better runner than passer at quarterback.

Swiss Skier Collombin Treated for Leg Injury

BERN, Nov. 26 (Reuters).— Swiss downhill racer Roland Collombin is being treated for a leg injury suffered in training and may miss the opening race of the 1974-75 World Cup season at Val d'Isère, France, next week,

doctors said here today. Collombin, 22, bruised his right shinbone in a fall on Nov. 13 while practicing with the Swiss national team at Thyon in the Valais Alos

seasons, Michigan would have gone to the Rose Bowl last winter in the conference. and Ohio State would be sent this season. Michigan last appeared in the Rose Bowl Jan. 1,

Don Canham, Michigan's direc-tor of athletics, also hopes the Big 10 will adopt something sim-liar to the Pac-5 rules. But even a change won't make Canha happy over the results of the last two Big 10 Rose Bowl selec-

"I can't see how the team with the best college record in the last three years can be overlooked for a bowl," Canham said. Michigan has won 30 games, lost two and tied one in the last three years, "I just can't comprehend the voting Sunday," Canbam

In Ann Arbor yesterday, speak-ing to the Michigan "M" club, the Wolverine coach, Bo Schembechler, also urged a change in the selection method and in the rule limiting Big 10 teams to postsesson play only in the Rose

"I'd be in favor of opening ft up and telling the bowl people that if we don't go to the Rose Bowl we're available to play in their bowl games. We darn well might go, hig 10 or not." He add-ed, however, that such a move would have to be approved by

gan and one for Michigan State. Obviously, they suspect Burt Smith, the Spartans' athletic director, voted for Michigan State to play in the Rose Bowl. He had a right to do that because Big 10 rules for voting say an athletic

can say about it."

Canham indicated that he felt the vote was 5-4-1. do think there was a vote for Michigan State. That's all I

voted for Ohio State a year ago when the balloting was 6-4 for Ohio State after the 10-10 tie. This created an uproor in the State of Michigan. This year Michigan State upset Ohio State for the Buckeyes only loss and the Spartans finished the year with a Big 10 record of 6 victories 1 loss (to Michigan) and a tie. That put them right behind Ohio State and Michigan, which had identical 7-1 records in the con-

yesterday as the American League's rookie of the year for 1974 in a runaway vote by the Baseball Writers Association of

Walnable player.
Hargrove, 23, of Perrytown, the first nati-- Teran on the team's roster, received 16 1/2 first-place ballots from the 24-man voting committee. Bucky Dent, Chicago White Sox shortstop, was a dis-tant second, with George Brett, Kansas City Royala third baseman, third; Rick Borleson, Bos-ton Red Sox shortstop, fourth, and Hargrove's teammate, catch-

er Jim Sundberg, fifth.

Resprove drove in 66 runs and

Texas finished second to the Oakland A's in the American League West.

"Whenever you get an award like this, it's more of a team award," Hargrove said. "With Jeff hitting all those RBIs, it made my job a whole let easier. You've got to be thankful you played for a good team because that's what made it possible."

Hargrove's major-league debut was an instant success. He batted was an instant success. He natted
371 through his first 59 games.
Billy Martin, the Texas manager,
said of the rookie:
"He knows the strike zone. He
isn't fooled often. A pitcher may
get him out the first couple of
times then lack out.

times, then look out. And what's more, he has the glove to go with his big bat."

Hargrove doesn't consider himself a power hitter; he hit only four homers last season, had 18 doubles and six triples. He also hits to the opposite field often.

NEW YORK, Nov. 26 (UPI) --The New York Mets reassigned outfielders Dave Schneck and George Theodore today to Tidewater of the International League, reducing the Mets' roster to 36

Schneck hit 205 with five home runs and 25 RBIs in 93 games with the Mets last season, while Theodore hit .158 with a homer

side for fear of injuries that could

idle them in the lucrative Bun-

desliga (first division) and the

ed four goals for the Italians on penalties was no small to be dull and unadventurous in each game. Its swift counter- achievement, and it must be even if it did score two goals in even if it did score two goals in

Madrid. Archie Gemmill, the Scottish midfield player, perhaps bolds the key. When he puts himseif out, the wheels turn rapidly and smoothly, and be received splendid support from the attacking right-half, Bruce Ricch, signed from Aston Villa, In attack, the English international Kevin Hector, a regular goal-scorer, is now abetted by Francis Lee, a still more experienced English international from Manchester City. Derby should beat Velez com-

fortably enough. But the team should remember that Velez has one of the best center-forwards one of the pest center-torwards in Europe in Bajevic, well abetted by the inside-forward, Vladic.

The news that Yugoslavia has agreed to play its European Nations Cup match this season in Belfast is encouraging to North-

Belfast is encouraging to Northern Ireland, which cannot even persuade the other British teams to play there.

Match Postponed

HUELVA, Spain, Nov. 26 (UPI) A friendly soccer match scheduled tomorrow between a southern Spanish selection and the Soviet national team has been called off, officials said yester-

They said that the suspension was due to "last-minute difficulties on the part of the Rus-sian side" and that efforts to find a substitute team have been posuccessful

World Cup Income

FRANKFURT, Nov. 26 (AP) .-The nine West German cities which staged the 1974 World Soccer Cup collected almost 50 million marks (\$20 million), the organizing committee reported Tuesday.

More than 42 million marks came from a nationwide lottery which helped finance construction connected with soccer sta-diums in Hamburg, Hannover, Gelsenkirchen, Dortmund, Düs-seldorf, Frankfurt, Stuttgart, West Berlin and Munich. The highest amount-7.1 mil-

lion marks went to the city of Frankfurt and the lowest-407,558

Forest Hills Surface

FOREST HILLS, N.Y., Nov. 26 (UPI).-The controversy over the type of surface to be used for the United States Open Tennis Championship is finally settled,

It was announced yesterday that Har-Tru, a state-colored claylike surface, would replace the traditional grass surface used at Forest Hills Stadium since its inception in 1923. The reason for the conversion

is the deterioration of the grass due to the rough pounding it took in the championships this year.

No Frazier Bout, Bonavena Says BUENOS AIRES, Nov. 26 (Reu-

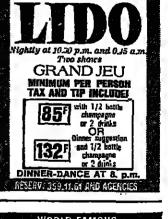

ters).—Argentine heavyweight Oscar Bonzvena said here that he had no plans to fight ex-champion Joe Frazier of the United States in Australia next month. Frazier was quoted as saying that the fight—billed as an eliminator for the world crown-would be held on Dec. 14.

Bonavena said in an interview with a local radio station that he would not fight Frazier for less than \$120,000, and that he had so far been offered only \$75,000. Bonavena and Prazier have met twice before, with the American winning ou points both times.

RUE D'ARMAILLE (17") ETO 5684 COMM

To reach the international European businessman, use an international European newspaper.

When Europe is your advertising target, the International Herald Tribune is your advertising medium.

Here's why. The businessmen who make up Europe's most important audience are increasingly multi-national. They work across borders. They buy and sell across borders. And they travel a lot. Because they think internationally,

they appreciate a newspaper that does too. That's why, more and more, they rely on the one newspaper that meets their needs. That's edited from an international rather than a national point of view. That's readily available no matter where they are. A newspaper they can turn to for a clear, concise summary of what happened yesterday in the worlds of finance, commerce,

politics and the arts. We have facts and figures to substantiate this:

1. Brand new research, conducted throughout Europe by an independent, London-based firm, that proves we reach the most affluent. influential business audience

in Europe. 2. Audited circulation figures showing exactly how many copies of the International Herald Tribune go to each country in Europe. No one of them accounts for as much as 20 % of the total, no one of them can be considered the Herald Tribune "home"

3. An editorial product that matches its readers' interests. Compare any copy of the International Herald Tribune with that of any other European newspaper and you'll see at a glance which is the International

International Herald Tribune

Europe's only international daily newspaper.

For Saturday's Game **Annual Military Sideshow Begins**

By Jay Searcy

NEW YORK, Nov. 26 (NYT).-There will be a bonfire on the parade grounds at West Point one night this week and cadets will sing and march to the coach's house with torches. Army's football captains will speak, heroes of the past will return and cadets will salute officers with

Beat Navy, sir." Bedsheets will hang from barracks windows like banners, statues will be decorated with bras and similar ornaments, the Goats will play the Engineers in a traditional football game and a cheerleading organization called the Rabble Rousers will complete rehearsals for the 1974 John F. Kennedy Stadium Army-Navy football game and sideline show scheduled Saturday.

And one night this week at the Naval Academy in Annapolis, Md., 59-year-old Vice-Adm. William Mack will be rousted from his home and ridden in a blanket to some high jinks adventure—like a forced swim in the Severn River—and some officers may shinny over the academy walls and go AWOL with hundreds of middles. Thirty-six companies of men will shout "Beat Army" until they are red-fated and rehearse their roles in the 75th Army-Navy game and sideshow.

in Philadelphia annually for 27 years, attracting as many as 102,000 spectators and a national television audience of millions. It has a cast of about 8,400—the cadets and midshipmen of the Army and Navy academies—two mules, a goat and it sometimes features generals, admirals and a president. The game will not affect the national col-

It is a surprise show that has been playing

legiate football polls—it hasn't in 10 years—but Philadelphia's 6,000 first-class hotel rooms will be filled, and there will be black-tie parties, ballroom dances and mayor's receptions.

Around the World At about 3 a.m. Saturday in Pearl Harbor, a band will begin to play and an annual Army-Navy football party will be under way, with half a dozen television sets and a load of booze. There will be parties in places such as Hong Kong Harbor, Fort Benning, Ga., aboard ships at sea, and at military bases around the

The Army and Navy teams, both with losing records, will practice in secret next week as if they were planning a major invasion and the nation's sportswriters will recall the golden era of Glenn Davis and Doc Bianchard, when the game was played for national championships and unbeaten records.

Every night at the mess hall at West Point. the cadets will listen carefully for an announcement that comes about once every four years: "There has been a report from the Naval Academy that the Navy goat is missing," at which time 4,200 cadets start chanting, "Wa've got Navy's goat," we've got Navy's goat."

At Annapolis, on the eye of the game, plebes

will sleep in shower stalls, on floors in closets,

or they won't sleep at all. And at about 5 a.m. on game day, a pep band will strike up during breakfast and a wildly singing, foot-stomping, food-throwing riot will ensue. Special guards are now posted to protect Bill

XIX. Navy's hidden mascot that has been

stolen by Army so often it now follows a cadet

as quickly as it follows a middle. "When we stole it in 1965," said Capt. Robert Lawrie, now on the West Point faculty, "he followed us like Last year, Army let Navy keep its goat and arrived at the stadium instead, with a home-made catapult, which hurled water-filled balloons into the Navy cheering section and someone (presumably a mid, although it was never confirmed) disguised as a cadet marched onto the field with Army, took off his cape and

through the formation waving a Navy pennant. The Army-Navy game is alive and well at Kennedy Stadium and there is no sign that it will ever die. The public interest began to wane in the 1950s when national spirit went the way of the shined shoes and short hair, but it is still America's most celebrated, most

tacket to reveal a Navy sweater and ran

colorful college football game. 91.929 Spectators

Last year, there were 10,000 empty seats and the game dropped from third to ninth in the season college TV rating, causing ABC-TV to consider removing it from its 1974 lineup. Philadelphia's hotel rooms were not sold but until late October and, of the 91,929 spectators, more than half were of the military family. "Perhaps the game has lost comething in the eyes of the public," A. m. Mack said, "but at

ter. There aren't many football games, college or pro, that draw 91,000 fans." The men closest to the game, the coaches, administration and some of the men who once played in it, can see the day when it again will be the game of the year, when the nation will choose sides again and pay attention. "Things go in cycles," said Col. John Foldberg, a former

the academies, it keeps getting better and bet-

back at Army. "It will swing back the other way." But until then, the academies will carry on the rivalry that started in 1890 when an Army tackle had a piece of an ear bitten off in pileup and a Navy back had his pants torn off.

can cannons, catapults, campus raids, seatpainting; and Navy will continue searching for a way to steal Army's mules, which has never been done-all in spite of a military resolution, issued two years ago, forbidding it. Players will go on crying when they lose—the way Army did lest year—and throwing admirals in the showers—as Navy did lest year after its

51-0 victory, the most one-sided game in the

There will continue to be goat steals, coke-

And the game will continue to generate a \$2 million Philadelphia weekend, whether America pays attention or not.

Hard Times and Love

By Russell Baker

WASHINGTON.—Good times to be grateful for the comic relief a first-class fool can provide.

The boom in love corresponded States, which may help account for the soured spirit with which we meet the return of hard times. Instead of love,

marriage and family, we now have sex, cohabitation and nursing homes, which may be dandy when the money is sufficient for footloose and fancy-free living but don't help much when you're

The modern assault oo love marriage and family as "oldfashioned" shackles soldered oo people by antique conventioo ignores the economic necessity of the harsh age in which Americans, now graying and plump with fat years, found that blood kin and gaiety provided protection from hunger and despair. In the Depressioo, everybody

went to live with an uncle who had a job. They are his oatmeal at breakfast and his boiled rooster at Sunday dinner, played Monopoly through the night with cousins and aunts, and stood guard against the meter reader. stalling him at the front door until Uncle Harry, who hadn't worked in five years, could pull the "cheaters" out of the cellar

On Sunday afternoons Uncle Pete, who lived by his wits in Hoboken, would show up in a battered Kessel or Whippet and take the children for a drive, and the adults, placing family solidarity above the priggish respect for the state which is now so fashionable among the righteous, would forbear from asking whether the car was "hot."

In these family communes, we were practicing survival just as surely as the frontier families had in another era of rapacity, and anyone suggesting that we were victims of an outmoded extendedfamily convention would have been beard with the same hilarity and mirth we accorded "the Kinglish" and "Amos 'n' Andy" and Herbert Hoover's pledge of a chicken in every pot.

Nowadays we seem less appreciative of fools. Perhaps you have to go almost to the end of the line, and have a glimpse of the worst just over the horizon, a smile be our umbrella?

with the drawing together of famflies, but it was the variety of love that was then called "romance," in which one fell in love, married, went on a honeymoon and, of course, raised a family, or to put it more precisely, strengthened the cily social

survival unit that seemed to work.

Contemplating this family of the future, one envisaged boys who, at school age, would get part-time jobs to add to the Saturday morning doughnut fund and girls who could do the housework and pull the "cheaters" if the meter reader paid a surprise call while mother was earning her \$12 a week at the laundry. Later, with extraordinary lock, one of them might go to college and earn \$5,000 a year, or marry a mao who did, thus insuring aunts, uncles, cousins and in-laws of a future on Easy Street.

The love that would lead to this family nirvana was celebrated endlessly in soug, and the lyrics usually argued its economic advantages. It was a good time to fall in love, ran a typical lyric, because both bananes and potatoes were cheaper.

On our present excursion into hard times we are traveling without our love to keep us warm, to paraphrase a Depression song's defiant reply to an earlier energy crisis. It is fcolish to sing "Bgnanas are more expensive, potatoes are more expensive, now's the time to fall in love." And when even shanties in old shanty town are going at \$50,000, what is there to sing about?

In any case, love, marriage and family have not survived very well the long bout of good times which they helped us survive the Depression to enjoy. Uncles who have jobs these days tend more and more to live in one-bedroom apartments, which they tempo-rarily share with a lover with whom they haven't the slightest intention of shuffling off to Buffalo. And who wants to play Monopoly any more when the most expensive property on the board would barely pay the week-

ly grocery bill? So here we are, shed of the shackles of family, and the trap of marriage, and the myth of "romance," and with all this freedom why are we too soured to let

Irving Marder—

Face-Lifting a Monument: The Newspaper 'Figaro'

DARIS (IHT).—Can a 108-year-old newspaper—suffering from typographical poisoning, falling circulation, 2 fuddy-duddy image, and tired blood—regain the bounce and vigor of its Second Empire youth? It not only can but must, in the opinion of Christian Lambert, who ought to know. Associate editor-in-chief of Le Figaro, he has just begun a monumental job of plastic surgery, the paper's first face-lift since late August, 1944, when it reappeared on the shell-torn streets of Paris slightly in advance of the Liberation.

Chatting in his office at the newspaper's opulent, châteaulike headquarters oo the Rond-Point of the Champs-Elysées, the young and personable Lambert spoke frankly about the decision that the time had come to present the world with "un nouveau Figaro"-one of many since its origin, which dates to 1826. The paper that took its name from the dashing Beaumarchais character, synonymous with high spirits, liberality, élan, savoir-faire, bad grown old-fashioned—"yes, démodé. We had begun to project a negative image."

The most obvious thing wrong with Le Figaro was its front page. Resembling the aftermath of an explosion in a print shop, it was the outstanding contemporary demonstration of the fact that oewspaper readers can accustom themselves to anything. On a typical Figaro froot page, the upper half was a Matto Grosso of headlines—just headlines, no stories. The stories were on the lower half of the page, if you got that far. But obviously the Figuro's readers did, and in large numbers— the paper's circulation is still between 600,000 and 700,000, and it is still France's biggest morning delly.

Nonetheless, it was clear that the paper was losing ground— "perhaps our readers were dying off." Lambert said with a grin—and in 1972 the top brass began to plan the present transformation. The results were unveiled Nov. 18, accompanied by a front-page editorial. It began gently with a reminder that the world has been changing constantly "since Adam and Eve" and concluded with a quotation from Mao Tse-tung: "The past must serve the present." The oew Figaro—a huge Improvement, at least visually, on the old one-looks somewhat like the English Guardian. The thicket of headlines has been eliminsted, replaced by three or four stories, with stylish-looking, much lighter, Century Bold headlines, only the first word and proper names capitalized.

Thus the principal change in Figure is typographical, but there are others that are not immediately appearent, aimed at presenting a newspaper that is "clearer, faster (to read) more in touch with the modern world and with youth . . " One of the chief contrasts with most American papers is that Le Figaro (in common with most French papers) classifies the news under regular headings; Foreign on pages 3 and 4, Domestic on page 5, Politics on 6 and 7, and so on. According to Lambert, the reaction of Le Figaro's readers to the changes has been almost cotirely favorable, though he added that the mail strike had greatly reduced the volume of response. But he said that many readers had phoned to say that they were very pleased with the "nouveau Pigaro."

More, perhaps, than other papers in other countries, this is a paper that has played a monumental role in the history of the nation it serves. Le Figaro's origins did not suggest, bowever, that a monument was in the making. The paper was launched, in January, 1826, as a four-page, pocket-sized weekly. Irreverent, satirical, and supposedly "noupolitical," it lasted just under a year, after which the title was sold for 300 francs. Six months later, the enterprising owner sold it again-for 30,000 francs.

The paper staggered along, with many crises, through the

REVITALISATION

first half of the 19th century, by which time it was printing the work of Balzac and Daumier. Le Figaro went daily in mid-November, 1366, achieving a circulation of 56,000 copies with the aid of such contributors as Zola. Through the turbulent years of the Franco-Prussian War and the Commune, it buttressed its new stature as a serious journal of news and opinion. By 1874, when it moved to spacious quarters on Rue Drouot, its contributors incloded Sardou, Halevy, Dumas and the Goncourt brothers. At the turn of the century the top editor was Gaston Calmette, who brought into the Figaro fold such writers as Rostand, Maeterlinck and Proust. On March 17, 1914, Le Figaro appeared with a black border: Calmette had been slain in his Figaro office, with five revolver shots, by Mrs. Joseph Caillaux, wife of the French finance minister. She had accused the editor of maligning her husband in printed attacks on his private life. (Caillaux resigned from office to defend his wife-

Le Figaro did not bow to the Nazis, like the Vichy regime of Marshal Pétain, after the armistice of June, 1940, but made a strategic retreat to Bordesux, then Clermont-Ferrand, then Lyons, in the so-called "unoccupied zone," finally suspending publication because of Vichy censorship in December, 1942. Thus it escaped the compromising stain of having published under Nazi control. On Aug. 22, 1944, a dozen intrepid Figaro editors, working furtively in the basement of a Montmartre print shop, produced the newspaper's first Liberation issue as French Résistance troops guarded the door. (That day's top beadline was: "La Délivrance de Paris"; the next day's was "Paris Combat Pour sa Liberté.")

Those may indeed have been Le Figaro's finest hours, but Christian Lambert and the team that is transforming the paper under his direction believe there may be some fine ones still to come. More changes are in store, in the next "three or four years," including possibly an even more radical shift: to a tabloid format. And comic strips, maybe? Lambert smiled, but promised nothing. Le Figaro is, after all, a serious paper.

PEOPLE:

Winsten Churchill's grandson, Winston Churchill 3d, and sev-

eral members of the British

Parliament Monday condemned actor Richard Burton's descrip-

tion of Churchill as a mass killer and a coward. "I realize afresh

that I hate Churchill and all his

kind," Burton said. "I hate them

virulently." The actor, who is to be seen as Churchill in a TV play, filmed in England and to

be seen in the United States

Friday (it will also be shown by

the BBC in England), made the

auti-Churchill comments in a
